CORSAIR Hydro X Series XR5 360mm Water Cooling Radiator

Embargo Date	9am, GMT+8, May 28th 2019 (2am BST, 3am CEST)
First Customer Ship Date	9am, GMT+8, May 28th 2019 (2am BST, 3am CEST)
Product Etail Title	CORSAIR Hydro X Series, XR5, 360mm, Water Cooling Radiator
Product Title	CORSAIR Hydro X Series XR5 360mm Water Cooling Radiator
Product Name	XR5 360mm Radiator
Pre-Order Option	No
Product Imagery Link	LINK

Overview

Description 25 Word

The CORSAIR Hydro X Series XR5 360mm Water Cooling Radiator delivers extreme custom cooling performance, with an 30mm radiator thickness and premium copper core.

Overview

Description 50 Word

The CORSAIR Hydro X Series XR5 360mm Water Cooling Radiator delivers extreme custom cooling performance, with 30mm radiator thickness and 25 micron thin cooling fins maximizing heat dissipation surface area. A premium copper radiator core further increases the thermal transfer rate, allowing custom cooling loops to run cooler and quieter.

Overview

Description 100 Word

The CORSAIR Hydro X Series XR5 360mm Water Cooling Radiator delivers extreme custom liquid cooling performance, with 30mm radiator thickness and 25 micron thin cooling fins maximizing heat dissipation surface area. A premium copper radiator core core is optimized for use alongside copper CPU and GPU water blocks, further increasing the thermal transfer rate. Intuitive extras such as Integrated Fan Screw Guides and built-in Screw Protection Plates make it easy to install fans, without worrying about damaging the radiator. Equipped with standard G1/4" threads for universal compatibility and the surface area to tame even the highest-end hardware, the XR5 360mm radiator stands ready to cool even the most ambitious custom cooling loops and defeat the heat.

CORSAIR Hydro X Series XR5 360mm Water Cooling Radiator

Features

Style 1

- Triple 120mm fan mounts on either side of the radiator are ready for your most ambitious custom liquid cooling build.
- 30mm radiator thickness delivers extreme cooling performance with high-airflow and low-noise fans.
- A premium copper radiator core and 25 micron thick cooling fins provide a high thermal transfer rate optimized for CORSAIR's performance copper water
- High-quality matte black polyurethane coating delivers a flawless finish to match your system.
- Integrated Fan Screw Guides make it easy to install fans even when the radiator is fitted into a case.
- Screw Protection Plates prevent too long or over-tightened screws from damaging the radiator core.
- Standard G1/4" threads for all inlet/outlet ports provide universal fitting compatibility.

Style 2

- **Extreme Performance Liquid Cooling:** Triple 120mm fan mounts on either side are ready for your most ambitious custom liquid cooling build.
- **High Surface Area:** 30mm Radiator thickness delivers easy installation and great cooling performance with low-noise fans and high-airflow fans.
- **Premium Copper Construction:** A premium copper radiator core and 25 micron thick cooling fins provide a high thermal transfer rate optimized for CORSAIR's performance copper water blocks.
- **High-Quality Polyurethane Coating:** A flawless finish to match your system.
- **Integrated Fan Screw Guides:** Makes mounting your fans to the radiator a breeze.
- **Screw Protection Plates:** Prevents too long or over-tightened screws from damaging the radiator.
- **Standard G1/4" Threads:** All inlet/outlet ports provide universal fitting compatibility.

Tech Specs

Product Type	Radiator
Cooling Warranty	3 years
Fin Spacing	16 FPI 25 Micron Copper Fins
Compatible Fan Size	120mm
Radiator Thickness	30mm
Radiator Dimensions	396mm x 120mm x 30mm
Port Thread	G1/4" BSPP
Screw Thread Size	M4xP0.7
Material	Copper / Brass
Compatible Materials	Only mix with other copper / brass products
Compatible Coolants	CORSAIR XL or equivalent
Max Operating Temperature	60°C coolant temperature
Color	Black

Box Contents

- XR5 360
- 12 x M4x6mm screws
- 12 x M4x30mm screws
- 12 x M4x35mm screws
