- Easy-Start: Gently increases power over 14 uses
- Quadpacer: Encourages attentive brushing of each quadrant of the mouth
- Rechargeable battery
- Smartimer: 2-minute timer helps ensure recommended brushing

Highlights

Patented sonic technology
Sonicare's unique dynamic action gently and effectively reaches deep between teeth and along the gumline.

Angled brush head neck
Uniquely angled brush head neck makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

UV brush head Sanitiser
All-in-one sanitising, charging and storage. The UV brush head Sanitiser helps keep your brush head free of bacteria. It kills up to 99% of bacteria and viruses.*

Naturally whiter teeth
Dynamic Cleaning Action and direct broader contact with each tooth have been proven to remove everyday stains and help keep teeth naturally whiter.

Safe and gentle
Your Sonicare is safe to use on: braces (brush heads wear out sooner when used on braces), dental restorations (fillings, crowns, veneers) and periodontal pockets.

Improves gum health
Optimal cleaning between teeth and along the gumline provides improved gum health in just two weeks. Giving a superior clean in between teeth and removes significantly more plaque than a manual toothbrush

Smartimer
Two-minute timer automatically tracks brushing time and turns the toothbrush off after two full minutes of brushing is complete.

Quadpacer
30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth

Easy-start programme
Gently increases power over the first 14 uses to ease into the Sonicare experience

Three different cleaning modes
The three modes include a clean mode for an outstanding clean in 2 minutes. A sensitive mode for gentle yet thorough cleaning of the gums and a massage mode to stimulate the gum.
