Design

- We invest into a Design that's Elegant, Versatile and follows the Miniaturization trend to make the modern worker stand out from the crowd while getting all the performance and productivity he needs;
- Harmonious angles, curves and proportions while optimizing footprint and weight;
- We don't just want our devices to look cool but they also live up to our unmatched quality standards. All our new Elite products are designed to pass MIL STD 810G test specifications, and our commercial products undergo 120,000 hours of rigorous testing as part of our HP Total Test Process.

Security

- We are protecting the BIOS with HP BIOSphere and HP Sure Start, and our HP Client Security software suite protects device data and identity. It's a suite of fully tested, integrated solutions that delivers out-of-the box functionality for IT to easily manage and deploy endpoint protection;
- HP Client Security software suite provides multi-factor authentication to ease a variety of options for device and system sign-on as well as hard drive encryption to keep sensitive data secure;
- Our credential support options include a fingerprint reader, with which we make the biometric match extremely secure (we call it 'hardened') as it's actually performed inside the sensor hardware versus exposing a software copy somewhere on the hard drive.

Collaboration

- On average, 40% of our working time is spent on conference calls and over 700 hours per year on conference calls[1];
- Meet with colleagues across town and around the world in an instant with Intel® Unite™ and Skype for Business. The HP Collaboration PC and your choice of display and collaboration accessories make it easier than ever to conference, show and share documents, and more;
- Manage your Microsoft Skype for Business conference calls directly from your HP Conferencing Keyboard with simple dedicated keys (adjust volume and mute settings with just one touch, stylish LED lights confirm your connection and mute status).

HP Desktop Security Solutions

HP (2013) Wall Mount Small Form Factor Security Sleeve
F0K75AA

Physically mount and secure your 2013 and legacy HP Small Form Factor Business Desktop PC onto a wall or underneath a desk with the HP (2013) SFF Wall Mount/Security Sleeve.

HP Chassis Security Kit
AR639AA

Blank optical bay security so computer components (memory, hard drive) cannot be removed from the chassis thru an open front black optical bay.

HP Business PC Security Lock v2 Kit
N3R93AA

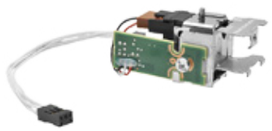
Simply route the cable through the PC's lock slot and your display, anchor to a desk, table, or other fixed surface, and lock with your individual key. A master key configuration is also available upon request.

HP (TWR) Solenoid Lock and Hood Sensor
E0X96AA

Help protect your PC from unauthorized tampering or theft with a hood sensor and chassis cover lock. Integrated software alerts admins to tampering or removal, and allows you to activate and deactivate the lock from a central or remote location.

HP 2014 (MT) Solenoid Lock and Hood Sensor
J6L42AA

Dual-function hardware design acts as both a hood sensor and a chassis cover lock.



HP 2014 (SFF) Solenoid Lock and Hood Sensor
J6L43AA

Help protect your HP Business Desktop Small Form Factor from unauthorized tampering or theft with the HP 2014 Solenoid Lock and Hood Sensor hardware and software security solution.

Memory Solutions

HP memory and storage solutions are great ways to take the productivity of your machines to the next level when you need it. All HP memory and storage modules are fully tested, warranted and supported.

HP Memory Solutions
Optimize your business computing performance with HP memory. Random Access Memory (RAM) temporarily stores information from your operating system, applications and data that are in current use. This allows your processor to easily access the critical information that makes your programs run. More RAM allows you to run more programs simultaneously and makes it easier to toggle between programs.

Insufficient memory and hard drive paging can slow your applications down. Upgrading your memory is a cost-effective way to boost your system performance without having to upgrade your processor. All HP warranty is tested and warranted to meet the demanding needs of your business.

For workstations, HP offers Error-correcting code memory (ECC) because high performance decision-making demands high performance reliability.

HP Displays Solutions

HP Display and Notebook II Stand
E8G00AA

Quickly and easily create a comfortable workspace for your notebook or notebook and docking station and an external display with the HP Display and Notebook II Stand, which brings your notebook PC, docking station, and display up off the desk.

HP Adjustable Display Stand
AW663AA

Turn your HP Business Notebook into an ergonomic and desktop-like solution supporting up to a 24 inch display. A dual-hinged, smooth-motion display stand allows for greater depth, height and tilt adjustment for maximum comfort. The adaptable design of the HP Adjustable Display Stand accommodates notebooks that can be connected to a docking station and notebooks that do not have a docking connector.

HP Adjustable Dual Display Stand
AW664AA

The HP Adjustable Dual Display Stand allows you to use two displays to maximize your productivity and optimize efficiency. Either or both displays can be rotated to landscape or portrait orientation, and the stand is depth-, height- , tilt-, and angle-adjustable so you can view both screens at eye-level as well as slightly facing each other, letting you track multiple applications and information sources at the same time. Integrated base rollers let you rotate the stand so you can more easily share your work.

HP Integrated Work Center Stand for Mini Desktop and Thin Client
E8H16AA

The HP Integrated Work Center Stand is designed to help maximize the use of limited desk space without compromising performance or productivity by accommodating an HP Desktop Mini or an HP Thin Client and most HP 17 to 24-inch[1] (43.18 to 60.96 cm) diagonal LCD monitors (please refer to compatibility in the Quick Spec) with VESA standard mounting brackets.

HP Integrated Work Center for Desktop Mini and Thin Client
G1V61AA

Find your best viewing position with adjustable height, tilt, and swivel adjustment settings.

HP Integrated Work Center 3 for Small Form Factor
F2P06AA

Simply attach the monitor to the included VESA mounting plate, route the cables through the provided cable channels, place the Small Form Factor PC or Workstation on the back platform of the stand, and lower the top latch to secure it in place.

HP Displays Solutions

HP Single Monitor Arm
BT861AA

The HP Single Monitor Arm is the perfect desk accessory for your work life. Sleek and streamlined, the HP Single Monitor Arm is designed to complement the way you work.

HP PC Mounting Bracket for Monitors
N6N00AA

Customise an altogether better solution with the HP PC Mounting Bracket for Monitors, which lets you attach your HP Desktop Mini, HP Chromebox, or select HP Thin Client directly behind select HP Z Displays and EliteDisplays.

HP Quick Release Bracket
EM870AA; EM870AT

A secure and easy-to-use mounting solution for your VESA-compliant HP flat panel monitors, thin clients and other HP desktop products. Attach to any a compatible stand, bracket or wall mount and make the most of your workspace.

HP Business PC Security Lock v2 Kit
N3R93AA

Simply route the cable through the PC's lock slot and your display, anchor to a desk, table, or other fixed surface, and lock with your individual key. A master key configuration is also available upon request.

HP DisplayPort Cable Kit
VN567AA

Connects a DisplayPort connector on an HP Business Desktop computer to a DisplayPort connector on a monitor.

HP Displays Solutions

HP DreamColor Calibration Solution
B1F63AA

The HP DreamColor Calibration System (DCS) is an LCD monitor option designed for professional users who require precision colour accuracy in their work output. It allows users to quickly and accurately calibrate monitor front-of-screen settings to prevent any drift of critical monitor colour or whitepoint settings.

HP USB Graphics Adapter
NL571AA; NL571AT

HP offers a variety of optional products (each sold separately) designed to complement our monitors and enhance the overall computing experience. The super-compact HP USB Graphics Adapter enables connection of up to six[1] simultaneous displays to help you boost productivity and multi-task across several open applications. Use one Adapter to bridge between a notebook or desktop PC and second monitor or use multiple Adapters to connect several displays to each other. Supports resolutions up to 1920 x 1080 (widescreen) or 1600 x 1200 (traditional).

HP UHD USB Graphics Adapter
N2U81AA

Boost your productivity by extending or mirroring your desktop to a UHD display with the HP UHD USB Graphics Adapter.

HP LCD Speaker Bar
NQ576AA; NQ576AT

Attach seamlessly to the front bezel of your monitor to add full multimedia support features, including stereo speakers with full sound range and an external jack for headphones.

HP HD141 Hood Kit for Z27x
G0M47AA

Customise your HP DreamColor workspace. Create an ideal lighting environment for your HP Z27x DreamColor Display with the HP HD141 Hood Kit for Z27x.

[1]Connecting six simultaneous displays requires 5 HP USB Graphics Adapters.
