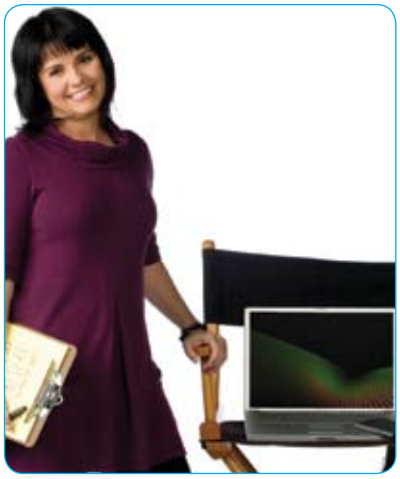
My Passport™ Elite™

Portable Hard Drives

Luxurious Soft-touch Finish
Capacity Gauge
Backup and Sync Software



My Passport portable hard drive holds everything I need and helps me look good behind the camera.

–Caroline Scott
Producer

Backup storage to go!

A luxurious, soft-touch finish makes My Passport Elite portable hard drives easy to grip, comfortable to hold, and beautiful to show off to your friends. Combine that with mega-capacity, and a capacity gauge to show you how full your drive is, plus backup, sync and encryption, and remote access software and you'll understand why we call these little drives Elite.

- **USB powered** – Powered directly from the USB port on your computer. No separate power supply is needed.*
- **Automatic backup** – Set it and forget it; every time you plug it in, your data is automatically backed up.
- **Synchronized and secure** – Plug the My Passport portable hard drive into any computer to edit files, read e-mail, and view photos. Then sync all of your changes back to your home or office computer. Your data is protected with 128-bit encryption. (Windows® only)
- **Remote access** – Retrieve a forgotten presentation or file from the road. Connect the portable hard drive into any computer to run MioNet® Key software to remotely access files, music, and photos from any of your computers with MioNet software installed. Free for the life of the drive. (Windows only)

*An optional cable is available for the few systems that limit power from the USB port.
