Overview

(100-Word Product Description, Preferred Copy)

Corsair ML140 PRO LED delivers unrivaled performance and silence by utilizing magnetic levitation technology and a custom rotor design. The innovative design provides both high static pressure and high air flow, with an ultra-low friction magnetic bearing that simultaneously generates lower noise and provides higher performance. A 1,600 RPM control range gives you total control between silence and absolute performance. Replaceable corners mounted to anti-vibration rubber dampers allow you to match your fans with the rest of your build. This no compromise fan also gives you full customization of both performance and appearance.
