H-Frame 2.0

Open-Air Chassis

2.0: An All New Generation

Introducing the H-Frame 2.0 which has been developed in honor of In Win's 30th anniversary.
Luminous LED lights embellish the edges of the outer aluminium blades.
The radiant, innovative layered aluminium structure refines In Win's signature look.

Next Level of Craftsmanship

The H-Frame 2.0 is a sleeker, more polished H-Frame with an open-frame concept composed of nine aluminium stacked sheets and tempered glass side panels, creating a vibrant and astounding visual display.

Lucent Lighting Effects

The H-Frame 2.0 possess a six-level lighting effect. The brightness can be adjusted from 0% to 100% for various scenarios. Moreover,
the thoughtful lighting system indicates the on/off state by a flickering effect.

6-Way
LED Mode

(0 / 20% / 40% / 60 % / 80 %/ 100%)

USB 3.1 Type-C: Expedited Transmission

Installing the USB 3.1 Type-C interface means no more struggle to find the correct side to connect, both sides work, and provides high-speed transfer rates. The transfer rate can even speed up to 10Gps, which provides users with a more enjoyable experience.

USB 3.1 TYPE-C

SPEED UP TO 10Gb/s SUPER SPEED

USB 3.1 TYPE-C REVERSIBLE DESIGN

*Practical transfer rate depends on the design of motherboard.

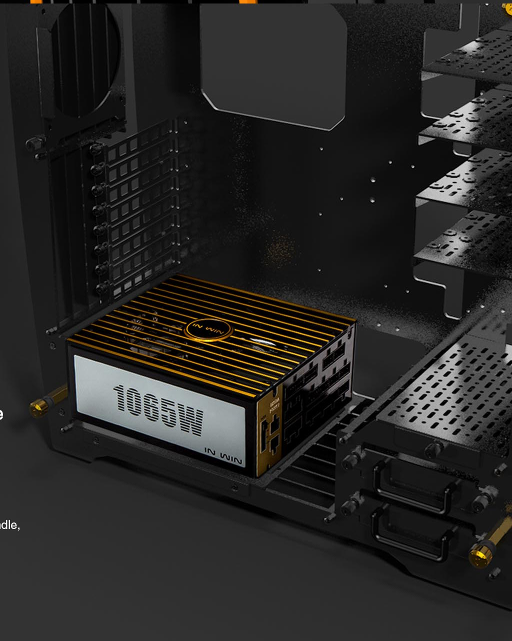
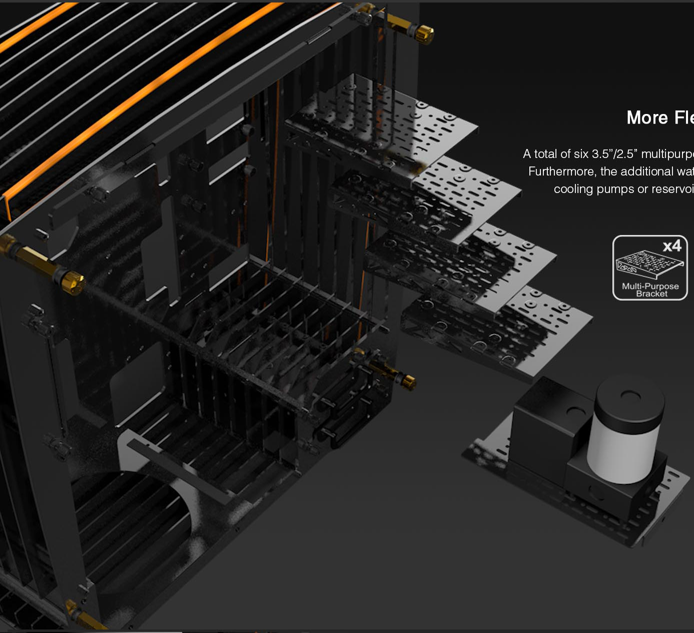
30th IN WIN

In Win’s 30th Anniversary Limited Edition Bundle

In honor of In Win’s 30th anniversary, In Win introduces their first limited edition Case+ Power Supply. Each H-Frame 2.0 includes SII-1065W power supply, which is made exclusively for H-Frame 2.0. This perfectly matched hardware grants owners with an In Win exclusive bundle, which is marked with a serial number of its production.





More Flexible Installation

A total of six 3.5”/2.5” multipurpose HDD trays allows convenient installation. Furthermore, the additional water cooling tray can hold different size water cooling pumps or reservoir for extra thermal solution alternatives.

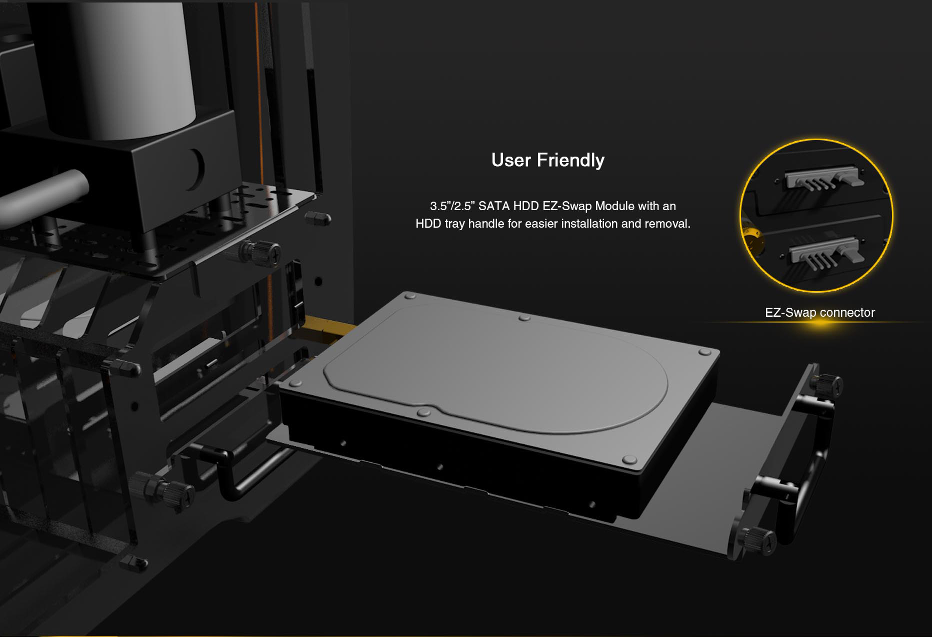
x4
Multi-Purpose Bracket

x2
Removable HDD Bracket

Pump Mounting Bracket

User Friendly

3.5”/2.5” SATA HDD EZ-Swap Module with an HDD tray handle for easier installation and removal.



Upgraded Expandability

The H-Frame 2.0 supports high-end graphics cards up to 330mm, and up to an E-ATX motherboard.
The spacious interior is able to accommodate a top radiator up to 360mm for excellent airflow.
