Overview

50 Word Product Description

The Carbide Series 175R RGB is a mid-tower ATX case designed with clean lines and accented with an included RGB cooling fan. Show off your PC's interior with an edge-to-edge tempered glass side panel, while keeping your PSU and cables out of sight with a full-length PSU cover. Keep cool with room for up to six fans or multiple radiators, including a 360mm radiator in front.

Overview

100 Word Product Description

The Carbide Series 175R RGB is a mid-tower ATX case designed with clean lines and accented with an included RGB cooling fan. Show off your PC's interior with an edge-to-edge tempered glass side panel, while keeping your PSU and cables out of sight with a full-length PSU cover. Keep cool with room for up to six fans or multiple radiators, including a 360mm radiator in front. Connect the included RGB fan to compatible Asus, Gigabyte, or MSI motherboards and their accompanying software for customized lighting control. With storage support for up to four drives, three removable dust filters, and a front I/O panel for easy access to your favorite devices, the 175R RGB pairs CORSAIR quality with classic style.

## Features and Benefits

### Style 1

- Give your system a look that's both clean and classic with smooth curved edges, a polished finish, and a front-facing CORSAIR logo backlit by an RGB fan with six customizable RGB LEDs.
- An edge-to-edge tempered glass side panel window shows off your PC's components.
- A full-length PSU cover hides your PSU and cables out of sight, making immaculate builds easier to create than ever.
- Fits up to 6x 120mm or 4x 140mm cooling fans for terrific airflow that keeps your PC cool, or multiple radiators in sizes up to 360mm.
- Connect the included RGB fan to compatible Asus, Gigabyte, or MSI motherboards and their accompanying software to customize and control RGB fan lighting
- Supports up to four drives for the storage options you need: two combo 3.5in / 2.5in trays in a removable cage, one 2.5in tray and one 2.5in mount.
- Removable dust filters in the floor, roof and front help keep your system clean long after the build is finished.
- A front I/O panel with two USB 3.0 ports and a combined microphone/headphone jack provides easy access to your favorite devices.

### Style 2

- **Clean and Classic:** Define your style with smooth curved edges, a polished finish, and a front-facing CORSAIR logo backlit by an RGB fan with six customizable RGB LEDs.
- **Edge-to-Edge Tempered Glass Side Panel:** Show off your system's components with a fully transparent window into your PC.
- **Full-length PSU Cover:** Hide your PSU and cables out of sight, making immaculate builds easier to create than ever.
- **Powerful Cooling Potential:** Fits up to 6x 120mm or 4x 140mm cooling fans, or multiple radiators in sizes up to 360mm.
- **Compatible with Motherboard RGB Control:** Connect the included RGB fan to compatible Asus, Gigabyte, or MSI motherboards and their accompanying software to customize and control RGB fan lighting.
- **Flexible Storage Options:** Supports up to four drives for the storage options you need: two combo 3.5in / 2.5in trays in a removable cage, one 2.5in tray and one 2.5in mount.
- **Keep Your System Clean:** Removable dust filters in the floor, roof and front help keep your system clean long after the build is finished.
- **Up-Front Connections:** A front I/O panel with two USB 3.0 ports and a combined microphone/headphone jack provides easy access to your favorite devices.
