Video Converter VGA/Audio to HDMI up to 1920x1080p (Full HD), small housing, black

The DIGITUS DS-40131 converts your analog VGA signal to a digital HDMI signal. Thus enables you to connect your devices with just a VGA port, easily to a HDMI monitor, TV or video projector. The VGA input just tranfer the video signal so the converter has an additional 3.5mm audio jack port. Any existing audio signal will be converted and integrated into the HDMI signal. This allows an extra audio playback through the HDMI signal.
