

Qoltec Uninterruptible power supply | Monolith | 2000VA | 1200W

Product code: 53975

Qoltec off-line UPS is a modern and economical device that ensures stable operation of the computer even in the event of a power cut.

It's perfect for anyone who wants to have control over the stable operation of their devices regardless of fluctuations in the power supply.

Discover safe Energy	Each of us has had to deal with low tensions at home or at work more than once. Sometimes they only have the effect of needing to restart the computer. But how many times as a result of such an event have you lost important unsaved data or encountered a device failure? If the above situations are familiar to you, we have a solution, thanks to which the problems of voltage decay or voltage drops will not apply to you. Qoltec UPS uninterruptible power supply is a solution that provides a constant supply of energy necessary for the stable operation of your computer.
Efficiency	UPS is equipped with a maintenance-free battery that provides stable operation during an emergency power supply. During this time, you will save important data on the disk. The process of charging the battery to 90% efficiency is 4-6 hours.
Better quality work	Our power supply is equipped with protections: - overload, - short circuit, - high temperature.
Confidence confirmed by a warranty	You value the quality of purchased equipment so our projects and solutions are focused on meeting your expectations. Each UPS off-line is covered by 24 months warranty.
