

Philips LED
Candle

5.5W (40W)
E14
Warm white
Frosted

Warm white light, no compromise on light quality

Create a warm, inviting ambience

This LED candle provides a beautiful, warm white light, an exceptionally long life and immediate, significant energy savings. With a pure and elegant design, this light bulb is the perfect replacement for your incandescent candles/lustres

Create a warm atmosphere

- True incandescent-like warm white light (2700 K)

Pure and elegant design

- Perfect fit and high-quality finishing

Instant brightness

- Instant light when switched on

Save on energy

- Saves up to 80% energy

Objects are seen in their true, natural colours

- High colour rendering (CRI > 80) for vivid colours

PHILIPS

Candle
5.5W (40W) E14, Warm white, Frosted

Specifications

Bulb characteristics

- Shape: Candle
- Cap/fitting: E14
- Dimmable: No
- Voltage: 220–240 V
- Type: P45

Power consumption

- Wattage: 5.5 W
- Wattage equivalent: 40 W
- Energy efficiency label: A+
- Power consumption per 1000h: 5.5 kW·h

Light characteristics

- Light output: 470 lumen
- Colour: Warm White
- Colour temperature: 2700 K
- Light effect/finish: Warm White

- Colour rendering index (CRI): 80
- Starting time: < 0.5 s

Durability

- Lifetime of lamp: 15,000 hour(s)
- Number of switch cycles: 50,000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions

- Height: 88 mm
- Width: 45 mm

Other characteristics

- Power factor: 50
- Lamp current: 0.5 mA
- Lamp Classification Risk Group: RG0

8718696586648

Highlights

Warm white light (2700 K)

Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosier light, while those with a higher Kelvin value produce a cool, more energising light.

Beautiful, switched on and off

Familiar shapes are a perfect fit for your fixtures: we have retained the shapes and appearance of the classic light bulb.

High colour rendering (CRI>80)

The colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colours truly and naturally.

Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving now.
