

ELECTRIC PASTA MAKER

for a fully automatic production of pasta

Fresh pasta at the touch of a button

ROMMELSBACHER

This fully automatic pasta maker made by ROMMELSBACHER produces a variety of pasta types and also allows the preparation of individual recipes from ingredients of your own choice. Thus it exactly hits the core of today's eating habits. Modern people clearly express their personal lifestyle through the choice of their food. Whether vegan, gluten-free, with egg or whole grain – the electronically controlled pasta maker with integrated scales and automatic water supply provides up to 800 g of pasta in a single pass. Seven classic pasta forms are possible, so that there is a lot of variety on the table. Operation is simple and convenient with 6 fully automatic and 2 manual programmes, whereby the user can also intervene in the preparation of the dough. Dough yield is high and immediately after being pressed out, the pasta is dried using a fan in order to prevent them from sticking together. The integrated accessory box for a hygienic storage of the 7 pasta form inserts (stencils) is very practical. Solid high-quality materials, numerous safety features, the bright LED display and easy cleaning make *Pastarella* the perfect fully automatic pasta maker for nutrition-conscious families and all pasta lovers.

Pastarella

Large variety by
seven different pasta
form inserts (stencils)

Technical data:

- type: **PM 220**
