

Embargo Date	January 7, 2021
First Customer Ship Date	December 28, 2020
Product Etail Title	CORSAIR iCUE H60i RGB PRO XT, 120mm Radiator, Single 120mm PWM Fan, Software Control, Liquid CPU Cooler
Product Title	CORSAIR iCUE H60i RGB PRO XT Liquid CPU Cooler
Product Name	CORSAIR iCUE H60i RGB PRO XT
Pre-Order Option	None
Product Imagery Link	https://corsair.sharefile.com/home/shared/fo6d8a61-931b-4640-a999-cee9685acbbba
Compatibility List	Intel LGA 1150/1151/1155/1156 Intel 2011/2066 AMD AM4 AMD AM3/AM2+

Overview

Description 25 Word

The CORSAIR iCUE H60i RGB PRO XT is an all-in-one liquid CPU cooler built for both low noise operation and improved CPU cooling, with a 120mm radiator, a CORSAIR ML120 PWM fan, and 16 RGB LEDs.

Overview

Description 50 Word

The CORSAIR iCUE H60i RGB PRO XT is an all-in-one liquid CPU cooler built for both low noise operation and improved CPU cooling, with a 120mm radiator and a CORSAIR ML120 PWM fan controllable between 400 RPM and 2,400 RPM. Equipped with 16 individually addressable RGB LEDs on the pump head, the H60i RGB PRO XT pairs killer looks with chiller performance.

Overview

Description 100 Word

The CORSAIR iCUE H60i RGB PRO XT is an all-in-one liquid CPU cooler built for both low noise operation and improved CPU cooling, with a 120mm radiator and a CORSAIR ML120 PWM fan controllable between 400 RPM and 2,400 RPM. Equipped with 16 individually addressable RGB LEDs on the pump head, the H60i RGB PRO XT is customizable through CORSAIR iCUE software, letting you create vivid lighting effects, adjust fan speeds, and enable Zero RPM mode to keep the noise down at low temperatures. With a thermally optimized cold plate and low-noise pump design, along with easy installation on most major CPU sockets, the H60i RGB PRO XT pairs killer looks with chiller performance.

Features

Style 1

- Improve your CPU performance with liquid cooling driven by a 120mm CORSAIR ML Series magnetic levitation fan, delivering powerful PWM-controlled airflow between 400 and 2,400 RPM.
- Fits in nearly any PC build with a 120mm radiator delivering high cooling surface area and performance.
- 16 Individually addressable RGB LEDs light up the pump head to produce stunning, customizable lighting effects to match your build.
- Zero RPM cooling profiles in CORSAIR iCUE software allow fans to stop entirely at low temperatures, eliminating fan noise.
- CORSAIR iCUE software allows you to control and synchronize your cooler's RGB lighting with all iCUE compatible devices, monitor CPU and coolant temperatures, and adjust fan and pump speeds, all from a single intuitive interface.
- Equipped with a thermally optimized cold plate and low-noise pump design for high-performance, quiet cooling.
- Modular, tool-free mounting bracket for quick and painless installation.
- Backed by a five-year warranty for complete peace of mind.

Style 2

- **Step Up Your CPU Cooling:** Improve performance with liquid cooling driven by a 120mm CORSAIR ML Series magnetic levitation fan, delivering powerful PWM-controlled airflow between 400 and 2,400 RPM.
- **Fits Nearly Any Build:** A 120mm radiator with an expanded radiator core delivers high cooling surface area and performance.
- **Dynamic Multi-Zone RGB Pump Head:** 16 Individually addressable RGB LEDs light up the pump head to produce stunning, customizable lighting effects to match your build.
- **Zero RPM Mode:** Zero RPM cooling profiles in CORSAIR iCUE software allow fans to stop entirely at low temperatures, eliminating fan noise.
- **Powerful iCUE Software:** Control and synchronize your cooler's RGB lighting with all iCUE compatible devices, monitor CPU and coolant temperatures, and adjust fan and pump speeds, all from a single intuitive interface.
- **High-Performance Cold Plate and Pump:** Equipped with a thermally optimized cold plate and low-noise pump design for high-performance, quiet cooling.
- **Easy to Install:** Modular, tool-free mounting bracket for quick and painless installation.
- **Five-Year Warranty:** For complete peace of mind.

Tech Specs

•Radiator Dimensions (mm):	157mm x 120mm x 27mm
• Coldplate Material:	Copper
• Tubing Length:	330mm
• Radiator Material:	Aluminum
•Fans included:	1x ML120 Magnetic Levitation Fans
•Fan Max Speed:	2400 RPM
• Fan Dimensions:	120x120x25mm
•Fan Airflow:	75 CFM
•Fan Static Pressure:	0.2 - 4.2mm-H2O
•Fan Noise Level:	10 - 36 dB(A)
•Lighting:	RGB via iCUE
•Cooling Socket Support	AMD: AM4, AM3, FM2, FM1 Intel: 1150, 1151, 1154, 1155, 1156, 1200, 2066, 2011-3, 2011
•Warranty:	5 Years

Box Contents

CORSAIR iCUE H60i RGB PRO XT Liquid CPU Cooler
 Mounting kit for all modern CPU sockets
 One ML Series PWM 120mm fan
 Fan and radiator mounting screws
 Thermal compound (pre-applied)
