

ELITE SHARK CA500

With a front and side made of continuous glass, the ELITE SHARK CA500 is the ultimate PC case for hardware enthusiasts. And in addition to the 270-degree view of the interior, there is already an impressive cooling performance available thanks to the side-panel air intake, four pre-installed fans, and space for two radiators. Modern connections and compatibility with the latest BTF mainboards round off the ATX case.

Features

- PANORAMIC VIEW OF YOUR HARDWARE**
 The specially manufactured, seamless glass of the front and side will perfectly showcase your high-end hardware with an impressive 270-degree view.
- OPTIMIZED AIRFLOW**
 Thanks to a side-panel air intake and four pre-installed 120 mm ARGB fans, the case comes ready with a strong cooling performance despite the large area of glass. A practical five-port ARGB controller with a five-port PWM fan hub is also included!
- IDEAL FOR WATER-COOLING ENTHUSIASTS**
 The ELITE SHARK CA500 is especially aimed at demanding water-cooling enthusiasts and offers space for the simultaneous operation of two radiators.
- COMPATIBLE WITH ATX BTF MAINBOARDS**
 For the ATX form factor, the case design also supports modern BTF mainboards, which allow cables and connections to be neatly concealed for good cable management and tidy hardware builds.
- MAXIMUM HARDWARE COMPATIBILITY**
 Because high-end hardware needs a lot of space, the ELITE SHARK CA500 can accommodate graphics cards with a length of up to 43.7 cm, as well as CPU coolers of up to 17.6 cm in height and power supply units of up to 26.5 cm in length.
- LOTS OF DATA STORAGE**
 If you want to manage a lot of data, you can flexibly install up to two 3.5" HDDs or up to six 2.5" SSDs in the ELITE SHARK CA500.
