Reliable television for smaller spaces

Do you want to enjoy watching your favorite shows in your bedroom or even in your cottage? In that case, the **ECG 32 HN252** television is designed just for you. This compact device is an excellent choice for all those looking for a reliable TV for smaller spaces without having to sacrifice image quality or functionality. With a **32-inch diagonal (80 cm)**, it is perfect for the bedroom, children's room, cottage or cottage, and the kitchen - wherever it can become your practical companion for everyday activities or well-deserved relaxation. The television operates with a maximum power consumption of **55 W** (less than 0.5 W in standby mode) and is classified in **energy class E**.

Sharp HD picture

This television works with **HD** resolution (1366 × 768 pixels), which, in combination with a modern **Direct LED** panel, ensures a sharp image, uniform backlighting and natural colors. Brightness **180 cd/m²** and contrast **1200 : 1** guarantee a clear display even in daylight. And an **8ms response** with a **60Hz refresh rate** eliminates blurring during fast scenes. Bottom line: you will see an image that will not disappoint you in any way In addition, image technologies such as progressive scanning, comb filter or noise reduction ensure that every detail is displayed on the screen with maximum accuracy.

Triple tuner for maximum reception flexibility

Thanks to the comprehensive **triple tuner (DVB-T/T2/C/S/S2)**, the way you receive TV broadcasts is in your hands. Whether you prefer **terrestrial broadcasting from an antenna, satellite reception, or cable TV**, the ECG 32 HN252 can handle it without the slightest problem. The equipment of the device also includes a CI+ slot, which makes it easier to watch coded programs.

Customizable stereo sound

The **NICAM** audio system with **2× 8 W** speakers will provide you with clear stereophonic sound that will perfectly complement your viewing experience. The presence of an **equalizer**, which offers **5 preset modes**, will also contribute to this - through them you can optimize the sound performance according to the type of content. Whether you're watching an action movie, the news, or a sports broadcast, the sound is always perfect. A **headphone output** is also available for private listening to the sound coming from the TV.

Practical functions in addition

Although the ECG 32 HN252 does not belong to smart TVs with Internet, it still offers a whole range of advanced functions. For example, **TimeShift** allows you to pause a live broadcast and start it again later from the same place, so you don't miss a moment of your favorite show. The clear **OSD menu, channel list and EPG** (electronic program guide) will make it easier for you to set up or navigate the program menu. And **Parental Lock** will provide control over the content your kids can watch.

Connect everything you need

The connector equipment of this 32-inch TV does not allow compromises. It does not lack **3 HDMI 1.4** ports, through which you can easily connect a game console, Blu-ray player or even a soundbar to the device. **2 USB 2.0 ports** then allow you to play your own movies, photos or other multimedia from a flash drive. And to make the TV compatible with older devices, it also offers a classic **AV input**.

Elegant, compact and flexible design

Although the ECG 32 HN252 does not belong to smart TVs with Internet, it still offers a whole range of advanced functions. For example, **TimeShift** allows you to pause a live broadcast and start it again later from the same place, so you don't miss a moment of your favorite show. The clear **OSD menu, channel list and EPG** (electronic program guide) will make it easier for you to set up or navigate the program menu. And **Parental Lock** will provide control over the content your kids can watch.
