

VK4 RAINBOW

Apart from its minimalist look and a perforated front panel for an optimum airflow, the VK4 Rainbow has four pre-installed 120 mm fans with a rainbow effect. In addition, the ATX case offers sufficient space for a neat cable management as well as for large pieces of hardware, including radiators of up to 360 mm.

Features

■ EXCELLENT HARDWARE COOLING

For excellent cooling, the VK4 Rainbow is pre-installed with four 120 mm fans, which are equipped with a rainbow effect for a visual highlight. The case also offers four additional mounting options for fans.

■ WATER-COOLING OPTION

As an alternative to fans, a radiator of up to 360 mm can be accommodated behind the front panel of the VK4 Rainbow, while a 280 mm radiator can be installed under the top panel.

■ ROOM FOR LARGE HARDWARE COMPONENTS

The VK4 Rainbow offers sufficient space for large components, such as graphics cards with a length of up to 35 cm, a CPU cooler with a maximum height of 16 cm, and a power supply unit with a length of up to 21 cm.

■ PLENTY OF DATA STORAGE

The VK4 Rainbow also has sufficient space for data storage and allows the installation of up to two 3.5" HDDs or four 2.5" SSDs.

■ CONNECTIONS ON THE TOP

The top of the VK4 Rainbow is equipped with two USB 3.0 ports and a TRRS port so that the most important peripheral devices can be easily connected. Additional devices can be conveniently connected to the back of the case.

■ NEAT AND TIDY INSIDE

Thanks to plenty space for cable management, the inside of the case always stays tidy. And pre-installed dust filters behind the areas of air intake ensure that the hardware also stays clean.
