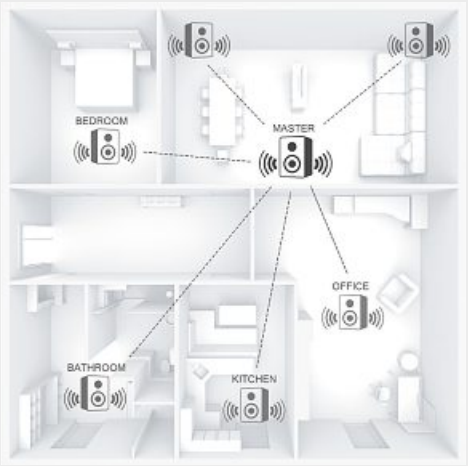
THE SMART SOLUTION

SIRIUM 2100AMBT

INTELLIGENT **HOME** SERIES

Smart-Speaker „Sirium2100AMBT“



HIGH-END SPEAKERS

With the “SIRIUM2100AMBT” high-end speakers, you can have your favourite artists play right there in your living room. Thanks to high-res audio support, a totally new audio experience awaits you with many-layered, full-bodied sound that gets under your skin – just as the composer intended.

Spotify Connect – unlimited musical enjoyment

With Spotify Connect you can enjoy music wherever you like. Smartphone, PC and in future also directly via your soundbar – when changing the player music starts exactly at the place where you stopped it before. Millions of songs and always the most current hit lists at the touch of a button – this is Spotify Connect!

Amazon Alexa voice control on board

The Hama ‘SIRIUM2000AMBT’ soundbar connects to the cloud-based Alexa Voice Service to play back music, set alarms and timers, make calls, call up the weather, the calendar, the traffic situation and sports results, manage the shopping list, or to just ask questions or control compatible smart home devices. Simply ask for a song, artist or genre from Amazon Music, Spotify, TuneIn and other services. Furthermore, audio books, radio stations, the news and much more can be played. Make calls and send messages to others who have a device with Amazon Alexa. Or quickly connect to other Alexa-enabled devices in your home using just your voice.

Multiroom – listen to your music anywhere in your home

You want to enjoy your favourite music in the bathroom although the soundbar is in the living room? Multiroom allows you to distribute your music to any compatible speaker in every room of your house even if only one device has the corresponding source.

Large rooms can also be filled with superior sound by simply positioning several devices that play back your favourite music without audible temporal offset!

Bluetooth streaming – music transmission from a smartphone or tablet PC

There is a super wide choice but there is nothing like your own music. Thanks to Bluetooth you can stream your favourite songs quickly and easily from your smartphone, tablet, notebook or PC to the soundbar. Simply pair the soundbar and your device and enjoy your favourite music!
