Overview

Description 25 Word

The CORSAIR Hydro X Series XF Ball Valve makes it easy to drain your custom cooling system, with a two-stage sealing valve that completely shuts off flow when closed.

Overview

Description 50 Word

CORSAIR Hydro X Series XF Ball Valve makes it easy to drain your custom cooling system, with a two-stage sealing valve that completely shuts off flow when closed. Machined from solid brass and available in durable black or chrome finishes, universally compatible G1/4" threads make it easy to add your choice of fittings.

CORSAIR Hydro X Series XF Ball Valve

Features

Style 1
Standard G1/4" BSPP threads provide universal compatibility with all CORSAIR XF Fittings.
Machined from solid brass for superior quality and durability.
High-quality finish in durable black or chrome for a flawless look.
Use the XF Ball Valve to seal off sections of your custom cooling system from coolant flow or easily drain your loop.
Intuitive two-stage seal completely seals off flow when closed.
Optimized for high flow rates to minimize fitting flow resistance and improve performance.

Style 2
Universal Compatibility: Standard G1/4" BSPP threads provide universal compatibility with all CORSAIR XF Fittings.
Machined from Solid Brass: For superior quality and durability.
High-Quality Finish: Available in durable chrome or black for a flawless look.
Fill or Drain easily: Use the XF Ball Valve to seal off sections of your custom cooling system from coolant flow or easily drain your loop.
Two-Stage Seal: Completely seals off flow when closed.
Optimized for High Flow Rates: Minimize fitting flow resistance and improve performance.
