HAF XB EVO (Windowed)

RC-902XB-KWN2

The Cooler Master **HAF XB EVO windowed version** takes the famous High Air Flow series to a revolutionary new form factor with extreme cooling performance. The removable horizontal motherboard tray and mesh front panel with two 120mm XtraFlo front fans create a powerful front to back airflow. There is plenty of space for even the tallest high performance tower heatsinks, thick liquid cooling radiators and up to 3 of the high-end graphics cards. The side panels with their rigid carry handles and the top panel can be removed, transforming the case into a test bench with direct access to the hardware. The front panel features two USB 3.0 SuperSpeed ports as well as 2 X-dock bays for lightning fast data transfers.

Features

- A case quickly and easily transforms into a test bench – ideal for enthusiasts and overclockers
- Two durable XtraFlo fans included in the front (also supports 240mm radiators) for powerful airflow
- Supports tower CPU coolers up to 180mm tall and high-end VGAs up to 334mm long
- Supports up to 4 HDDs or SSDs by removable HDD cages
- Motherboard tray can be removed to install, remove or swap components
- Dual USB 3.0 SuperSpeed ports and X-Dock bays in the front for lightning fast plug-n-play I/O
- Rigid carry handles on the side panels
