CHERRY PALMREST ERGO

Ergonomic palm rest with additional function

Models may vary from the image shown

The premium CHERRY PALMREST ERGO provides comfort throughout the workday. Supporting the wrists means that they remain relaxed and don't tire as quickly, letting you type for hours.
Thanks to the innovative extendable feet, the palm rest can be ergonomically adjusted individually for each keyboard according to personal preferences. One of three different tilt angles can be selected – making ergonomics at the workplace more personalized than ever before. It is even possible to set a negative angle for the keyboard, which stops the wrists from bending upwards.
Whether higher mechanical keyboards, flat scissor switch keyboards, compact TKL versions or classic full-size keyboards: the PALMREST ERGO fits on every desk and to every keyboard. The extra-wide design gives both right and left hand users enough space to work.
Furthermore, the palm rest scores highly with sophisticated components and focuses fully on comfort: The memory foam inside provides the optimal basis for working in comfort and this is completed by an exterior made of extra soft artificial leather. The durable and dirt-resistant surface made of recycled materials is thus not only comfortable, but also easy to clean. The non-slip bottom provides a secure grip on any desk.
The CHERRY PALMREST ERGO is the perfect addition to the workplace for anyone who values ergonomic working – whether in the office or when working from home.
