Attachment loops for helmet holder
Helmet holder is available as an accessory and allows easy and safe helmet storage.

Lite System
Our lightweight backpacks come into their own during endurance sports and Alpine day treks. Reduced to the essential, they are ideal for comfortably carrying light to medium loads depending on the volume. However, lightness must never come at the expense of durability. That is and always was our corporate philosophy, because disposable products put a strain on the environment and a backpack that falls apart high up in the mountains can also be dangerous.

Reflector

External Pockets (2)

SUITABLE FOR

 Climbing

 Hiking

BACK SYSTEM: (SPEED) LITE SYSTEM

- 1 ERGONOMICAL SHOULDER STRAPS**
Carrying comfort and perfect fit through ergonomically S-shaped shoulder straps with easy to adjust chest strap.
- 2 THE EXTREME LIGHT AND MINIMALISTIC COMPACT LITE BACK SYSTEM**
provides carrying comfort for low to medium loads. It provides a close and safe fit for challenging terrain a by padded back with ventilated 3D-AirMesh.
- 4 EXTENSIVE FREEDOM OF MOVEMENT**
and an optimum load centre thanks to the unusual athletic V-cut.

MATERIAL

210D PA

We use the Nylon material in hard wearing 420 denier and 210 denier density. Special high density denier polyamide offers high abrasion resistance with it's very tight weave. This top quality fabric is used for Guide backpacks and Travel range models. PU coating.
