

2.5" LMP DATAMOBILE

USB-C enclosure for SATA HDD/SSD

P/N
16117

Mobile 2.5"

2.5" LMP DataMobile

PRODUCT OVERVIEW

The LMP DataMobile combines the latest USB-C port with a true high-speed Type C 3.1 Gen 2 (10G) bridge in a sleek housing. This state-of-the-art 2.5" enclosure features an upper cover made out of aluminum to dissipate the heat effectively. It can be equipped with any standard 2.5" HDD or SSD with a maximum height of 9.5 mm. Whether it is for storing large amount of data on an HDD or for transferring data quickly from its SSD, the DataMobile is the right choice. It connects to the new MacBook and MacBook Pro with USB-C port with its USB-C to USB-C cable while getting all the power it needs from the host. And with the right cable or adapter (not included), it can be connected to any other host with USB-A (USB 3.0 or 2.0) ports. The mounting of an HDD or SSD is as easy as can be with only one screw to be tightened.

P/N 16117

KEY FEATURES

- Type C 3.1 Gen 2 (10G) chipset
- Transfer rate up to 520 MB/s read and 440 MB/s write (with SSD)
