

Heavy Duty Tilting Flat-Panel Wall Mount 800×600

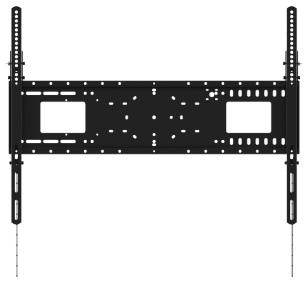

VFM-W8X6T EU SAP: 4934296 US SAP: 13557608

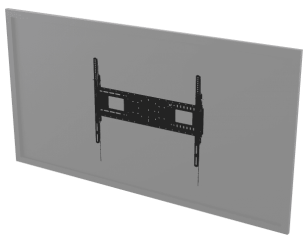

vav.link/vfm-w8x6t

Tilting Wall Mount for large-format flat panels 47-90"
(subject to VESA pattern and weight limit)
Mounting points up to 800 (wide) x 600 mm (tall) apart
Heavy duty 130 kg / 287 lb SWL
Display latches in place
Optional camera shelf

Vision's Vision Flat-panel Mount - Wall range is designed by Vision's engineering team for professional AV installers. This mount is no-compromise: very strong, fast to install, highly adjustable, everything included. The VFM-W8X6 fits any flat-panel LCD or LED screen which has rear mounting holes up to 800 wide x 600 mm tall apart.

Heavy Duty
Interactive flat panels are large and very heavy. Vision's VFM-W8X6T uses heavy gauge sheet metal to take the weight up to SWL 130 kg / 287 lb safely.

Everything Included
Vision includes everything you need including a load of M5, 6, and 8 bolts in varying lengths to fix the vertical arms to the rear of the display.

For 47-90" Displays
Fits most displays from 47-90" subject to VESA pattern and weight limit. Note: curved screens are not supported by this mount.

Meets ADA Regulations
The thin design holds the display just 51 mm / 2.0" off the wall. This looks better, reduces snagging risk, and because the load is close to the wall the mount has a higher safe working load rating.

Designed for Professionals
A proven design allows fast fixing, and slotted holes on the wall part allowing levelling adjustment after fixing.

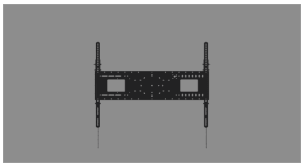

Latches Securely
The display latches on the horizontal section as the display is hung in place. Snap the plastic pull-rods off to length so they are hidden behind the display. Give the pull-rods a downward tug to unlatch the display.

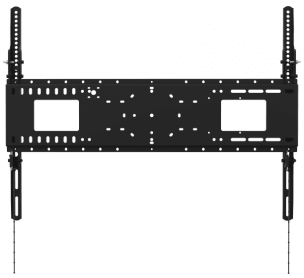

Side by Side
Two horizontal sections can be fixed together side by side for dual-display video conference or huddle room applications. Or extend the horizontal to bridge wide load bearing points in a wall.

Hide Media Player
Thoughtfully placed VESA 100 x 100 mm holes on the horizontal part allow a thin media player to fix behind the display out of sight.

Optional Laptop Shelf
An optional shelf fixes at four different heights in 80 mm (3.1") increments to the horizontal part of the wall mount. The platform is 450 mm (17.7") wide by 306 mm (12.0") deep. At the lowest height setting the shelf is 680 mm (26.8") below the centre of screen. *Part Number: VFM-WLS [EU SAP: 4857149 / US SAP: 13557610] Due into stock late 2019*

VISION

Video Conference Shelf
An optional shelf fixes in the centre above or below the display. Any camera including the Logitech Rally can be fixed to the shelf. It is also designed to accommodate Yamaha's YVC-1000, Barco's Clickshare CSE-200 base station, or Logitech's Meetup wall bracket can fix to the vertical part. With VESA 100 x 100 mm holes on the vertical section, product's like Heckler's Zoom Room iPad enclosure can be fixed. *Part Number: VFM-WVC [EU SAP: 5048878 / US SAP: tbc]*

12° Tilt
Ideal in applications where the display is mounted high, this mount features tilt to direct the display downward.
