Slim. Silent. Professional

Perfect for the travelling professional, the Hush Wireless Mouse delivers months of battery life in a low-profile package perfect for slipping into your pocket. Hush's silent buttons are perfect for the office or library and you can easily switch the mouse between three wireless devices with a single button.

Switch devices with a single click

Hush Wireless mice can store up to three paired wireless devices, making it easy to multitask with your iPad and MacBook, or share a keyboard at a hotdesk.

No Batteries Needed

Hush mice feature an integrated, USB-C charging battery which lasts weeks between charges, saving you the expense and hassle of swapping batteries in and out.
