

BlitzWolf BW-CML6 Monitor Light

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:— Reorient or relocate the receiving antenna.— Increase the separation between the equipment and receiver.— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.— Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or in conjunction with any other antenna or transmitter.

Product Parameters

Model: BW-CML6

Material: Aluminum alloy + ABS

Rated voltage: 5V Power: 6W (max)

Lighting: LED + RGB LED

Color temperature: 2800k-4500k-6500k

Ra: ≥ 90

Remote Control Input: DC 5V 1A

Remote Control Capacity: 1000mAh

Working temperature: $-10^{\circ}\text{C} \sim 40^{\circ}\text{C}$

Working humidity: 10%-90%

Monitor Light Operating instructions

1. Main LED Light

2. Light control button

☀️ Click the button to turn on/off the power; Long press the button to adjust the brightness
