### SPECIFICATIONS:

- + Waterproof pannier pair with roll closure
- + Ideal pack for bikepacking, alp crossing and trekking tours
- + With QL3.1 suspension system
- + Hanging and removing the bag with just one hand
- + Flat locking elements ensure a smooth back of the bag
- + Mounting of the bracket components takes place on the luggage carrier
- + Standard mounting possible up to 10 mm tube diameter
- + Height and inclination of the bag individually adjustable
- + Lower bracket hook of the mounting set rotatable
- + Due to symmetrical shape can be used on the left or right side
- + Bright reflectors made of 3M Scotchlite reflective material
- + Easy to clean inside
- + New: now also combinable with the Rack-Pack

**Contents:** Pannier comes with QL3/QL3.1 mounting set

**Optional accessories:** Clamps for higher diameters up to 16mm (E191), Outer Pocket 2,1 L, Mesh-Pocket

**Attention:** Maximum load per pannier is 9kg / 20 lbs. We recommend weighing each loaded pannier to confirm that the maximum allowance of the pannier fixation is not exceeded. This practice is advised for both rear and front panniers. CAUTION: The maximum weight capacity of every carrier model is different. Please observe the maximum weight allowance of the carrier fitted to your bicycle. Note: Sometimes the maximum capacity of the panniers fixing system can exceed the maximum capacity of the carrier. DO NOT exceed the maximum capacity of the carrier! Note, that the use of panniers will significantly influence the handling properties of your bicycle.

**Note:** In order to meet standard IP64 (6=dustproof 4=protected against splash water coming from all directions) the lid must be rolled 3-4 times.
