

**Saeco Exprelia
Super-automatic
espresso machine**

- Brews 7 coffee varieties
- Integrated milk jug & frother
- Steel/Silver
- 15-step adjustable grinder

HD8858/01

Exquisite coffee, fine tuned to your taste

Proven hygiene without hassle with steam cleaning

With Exprelia, aspiring coffee experts can experience the thrill of preparing a cup as professionals would, with the ability to refine up to 7 settings for each drink and the guarantee of a perfect hygiene, certified by VDE

Advanced technology designed for coffee perfection

- Delicious hot Cappuccino and Latte Macchiato at one touch
- Extract maximum flavor with the 100% ceramic grinders

A variety of coffees customized to your taste

- A multitude of specialty coffees at the touch of a button
- The strength selection remembers just how strong you like it
- Fine-tune the coffee's richness with 15 grinder settings
- Enjoy a crema layer as you like it with a twist of a knob
- Refine the coffee taste by adjusting the pre-brewing time

High comfort is part of the experience

- Proven hygiene with the patented steam cleaning carafe
- Up to 5000 cups* without descaling with AquaClean filter
- Cutting-edge design with stainless steel finishing
- The fully removable brewing group can be cleaned in no time

Highlights

One-touch Cappuccino and Latte

For an irresistible, creamy foam consistency, the integrated milk carafe froths the milk twice, removing bubbles and impurities. At one press of a button, a splash-free flow of velvety foam pours straight into your cup at a comfortable temperature. Thanks to the powerful double boiler, it can steam for milk frothing and brew espresso immediately after for perfectly hot drinks without the wait.

Memo Function

Once you've chosen your ideal strength from the 5 different settings, you can easily save it with the Memo Function, as well your desired length and temperature. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

Hygienic steam cleaning carafe

Maintaining high hygiene has never been this easy. Thanks to the Steam Cleaning Cycle, the frothing mechanism will be automatically cleaned, removing milk residues without the need to empty the carafe. The hygienic performance is certified by the independent German test institute, VDE.

AquaClean filter

Saeco's new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups*, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically

deactivated once AquaClean is installed in your favourite Saeco coffee machine.

Designed and made in Italy

An elegant vision of pure design, this machine looks as refined as the coffee it makes. The stainless steel front, inspired by Italian design and craftsmanship will stand the test of time in a classic or modern kitchen. Add to this its intuitive design features, and it becomes a richly fulfilling coffee experience.

Specialty coffees at one touch

From, espresso to frothed milk, there is an assortment of options waiting to satisfy your coffee cravings. Whether it's first thing in the morning or an after dinner treat, there's a taste for any time of the day, right at your fingertips.
