

Product name: ENDORFY Thock Compact Wireless NO Red
Product code: EY5B001

The ENDORFY Thock Compact Wireless NO Red fits even on the smallest of desks – imagine the extra space you’ll reclaim for your mouse. It also has a reinforced chassis, so no need to walk on eggshells around it. Each of the 61 keys (with a Nordic layout!) hides a Kailh Box Red mechanical switch. These are ultra-fast switches with beefed-up stems that will survive up to 70 million clicks. Eager to fight [click](#), and a delight for technology heroes who don’t shy away from that “one quick match” before bedtime. We topped them off with durable PBT keycaps made with Double Shot technology.

But that’s not the end of its perks – [hot-swap](#) is also included, so you can change your switches on the fly. The keyboard supports all 3-pin and 5-pin switches, giving you full freedom of choice.

Less [\(keys\)](#) is more [\(space\)](#)

The Thock Compact Wireless NO Red is 40% smaller than a standard full-sized whale of a keyboard. That means infinitely more desk space at your disposal. We opted for a bigger mousepad, and now we can drift around with a mouse like no one’s watching.

10/10, can recommend.

It’s one-size-fits-all (290×101×47 mm), so it suits even the most crowded desks. Its design allows you to place the cable in one of three custom-made channels on the bottom. Route it closer to the grommets or at the edge of the table for easier cable management.

Multiple connections available

It’s a three-lane highway with the Thock Compact Wireless NO Red, so you can ~~rule the world~~ [work](#) on several devices without the hassle of untangling the cables. Make better use of your home office – sit back on a comfortable couch instead of being permanently desk-bound.

Pair your PC, tablet, or smartphone via Bluetooth or 2.4 GHz connections. For a more old-school vibe (and for charging), use the included USB-C cable.

Hot-swap and a lifespan of 70M clicks

Who doesn’t want to relax on their favorite battlefield after a long day at work? We too love ~~the smell of napalm in the morning~~ [a good evening FPS sesh](#), so Kailh Box Red were a must-have. They’re soft and react to the slightest touch – you better gear up; their speeds are supersonic.

Kailh Box Red are “linear” and always ready to pounce. They excel in situations where you need to react immediately. In comparison to the standard Kailh Red, they have an additionally reinforced stem structure. With gear like this, they’re an elite commando unit ready for a mission – tireless and ultra-durable. 70 m clicks are no joke.

The Thock Compact Wireless NO Red has also a truly PRO option for tech geeks – hot-swap, the ability to easily swap switches in and out. The keyboard is

compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of models available on the market.

Legendary warrior style

Have you ever noticed how the legendary warriors/commanders in TV shows and movies are always the most stylish dudes in the world? Studded shields, horned helmets, leather capes, and all that jazz. Thock Compact Wireless NO Red is exactly like them.

We just skipped the useless baubles; they made typing impossible.

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line: our keys don't require additional surface finish – PBT is like armor that also keeps your fingers in place.

And the cherry on top – you can remove keycaps (switches too) at any time. Together with the keyboard, we give you handy tools for pulling them out.

Full Metal Keyboard

Whenever the mid-life crisis rolls in and we decide to start a gang, this keyboard will be its honorary member. You might say "This is madness!" – but Thock Compact Wireless NO Red is a tough cookie, and it ain't afraid of no ghosts. Even the scratching or punching ones.

Its reinforced ~~armor~~ chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

Let there be light ARGB

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then ARGB is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With Thock Compact Wireless NO Red, you can easily customize the look of the keyboard to match the rest of your ~~battle-station~~ desk. Highlight each of the 61 keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard.

Adjustable angles

For your uncompromised convenience, the Thock Compact Wireless NO Red is equipped with [magnetic](#) feet. Pick the height that best suits your needs.

Activate the God mode

Like to have absolute freedom and full control? We do too – so we added functional and feature-packed software to the Thock Compact Wireless NO Red. Do it your way.

We fondly refer to it as “God mode”. With its help, you’ll adjust all keyboard settings to your needs – whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock Compact Wireless NO Red – main features:

- Compact mechanical keyboard
- Modern design
- Bluetooth and 2.4 GHz wireless connectivity
- Configurable RGB backlighting
- High durability
- Kailh Box Red mechanical switches
- Durable PBT keycaps
- Detachable cable
