INLINE® FULL-MOTION TV WALL MOUNT

23-43 inch, up to 35 kg, black

- **Full freedom of movement:** Swivels ±90° and tilts from +5° to −10° for flexible adaptation to any room situation.
- **Space-saving & variable:** Extendable wall distance from 48 mm to 418 mm for optimal integration into different environments.
- **Universal compatibility:** Supports VESA standards from 75×75 to 200×200 mm for TVs from 23 to 43 inches.
- **Robust construction:** Powder-coated steel with a high load capacity of up to 35 kg ensures a durable solution.
- **Efficient installation:** Removable panel plate and included mounting hardware enable quick and secure installation.

The InLine® Full-Motion TV Wall Mount offers a reliable and flexible solution for professional mounting of TVs ranging from 23 to 43 inches. With a load capacity of up to 35 kg, it meets the requirements for stability and safety in a wide variety of environments.

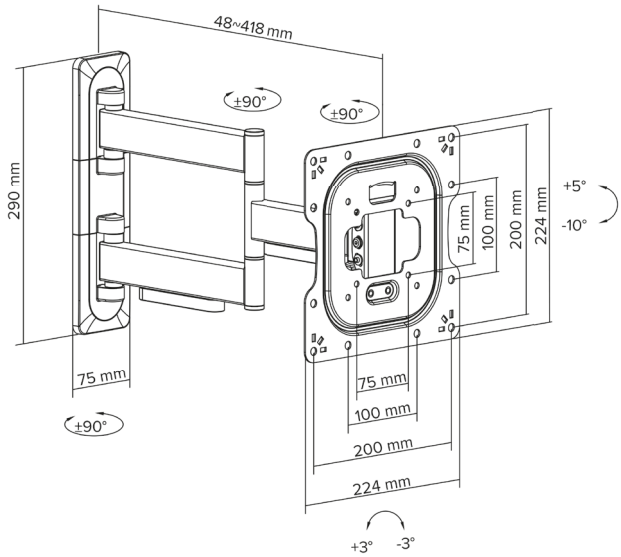

Thanks to the ±90° swivel function and a tilt of +5° to −10°, screens can be optimally aligned. This facilitates use in rooms with changing lighting conditions or variable seating positions. The extendable wall distance of 48 mm to 418 mm provides additional flexibility and enables space-saving mounting when the device is not in use.

The mount is compatible with common VESA standards (75×75, 100×100, 200×100, 200×200 mm) and is therefore versatile. The robust steel and plastic material ensures durability and high load capacity. The powder-coated surface in matt black gives the mount a modern design that blends discreetly into any environment.

For quick installation, the mount is equipped with a removable panel plate. In addition, the screws and dowels supplied facilitate installation on solid or stud walls. Cable management and decorative covers round off the product by ensuring a tidy and professional appearance.

Item No.	Colour	EAN
23103B	Black	4043718345748

- Screen size: 23–43 inches
- Load capacity: up to 35 kg
- VESA compatibility: 75×75, 100×100, 200×100, 200×200 mm
