# FM Radio | Under-Cabinet Radio | 30 Preset Stations | Display with Automatic Dimmer | White

## General information

If you love listening to music while you’re cooking or doing the dishes but there’s hardly any room to put down a radio, this Nedis® FM under-cabinet radio offers the perfect space-saving upgrade.
Simply install it under a kitchen cupboard or shelf with the included drilling template and screws.
The radio integrates a countdown function and stopwatch with alarm, which means you can also use it as a kitchen timer.
However, this under-cabinet radio is far more versatile. Think of mounting it in a workshop or shed, or in your bedroom as it also features a clock radio with snooze button, as well as a sleep timer for you to doze off to your favourite music.
30 presets and an AUX input to connect a CD player, MP3 player or smartphone enable you to select a radio station, your own playlists or favourite podcast to go with whatever suits your mood or activity.

## Features

• PLL digital tuning - enables optimum reception
• LCD display with blue backlight
• Display dims automatically between 11 p.m. and 5:00 a.m.
• Alarm clock function - with snooze button and sleep timer
• Stopwatch and countdown function - use it as a kitchen timer
• AUX input - connect CD or MP3 players, or smartphones
• 3.5 mm output - connect your headphones
• Under-cabinet mounting - saves valuable space
• Mains powered with backup batteries - retains (alarm clock) settings during a power outage
• Foldable feet - to also use the radio as stand-alone device
