Material	Galvanized steel
Product color	Black
Color insets	Blue
Package	EcoBox
Product size (L x W x H)	265 x 92 x 341 mm
Package size (L x W x H)	403 x 151 x 360 mm
Net weight	2.9 kg

Gross weight	3.34 kg
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750559
Warranty	24 months

Description

The **Akyga® AK-302-01BL SFF case** has been designed for users looking for functionality in an elegant and minimalist form. Thanks to its well-thought-out design, it is perfect for office, educational and home applications – wherever space saving and aesthetics matter. The SFF case is the perfect solution for building Nettop computers, workstations or multimedia sets for everyday tasks.

Modern Design and Solid Construction

The Akyga® AK-302-01BL case stands out with its modern look, which is emphasised by subtle blue accents. High quality is ensured by galvanised steel, providing durability and sturdiness. Its compact dimensions allow for both vertical and horizontal positioning, offering flexibility in workspace arrangement.

A Well-Thought-Out Interior for Your Mini PC

The interior of the case has been designed to make the most of the available space. It can accommodate both **Micro ATX** (up to 244 x 244 mm) and **Mini ITX motherboards**, allowing you to build versatile computer systems. What's more, the case also has space for mounting 3 drives – **one 3.5"** and **two 2.5"** or three 2.5" drives. In addition, there is **one external 5.25" slim bay** for an optical drive or card reader.

Quick Access to Front Panel Ports

The front panel of the AK-302-01BL SFF case provides quick access to modern connectors. There are four USB ports – including one **USB-C 3.2 Gen 2 port**, one **USB A 2.0 port** and **two USB 3.0 ports** – enabling fast data transfer and convenient connection of peripheral devices. This is complemented by a **CTIA audio jack**, compatible with popular headphones and headsets.

Kensington Lock Security

For users who value security, the case is equipped with a mechanical anti-theft device, a padlock slot and a Kensington Lock system. This is the perfect solution for office or educational environments where additional equipment protection is particularly important.
