PRODUCT DESCRIPTION

i-tec MySafe USB-C Gen. 2/USB 3.0, External case for 2x 2,5“ SATA HDD/SSD Drive is an external case for up to two 2.5" SATA HDD/SSD drives to be connected to your PC, laptop or tablet via USB-C, or USB 3.0 interface (the USB-C to USB-C and the USB-C to USB 3.0 cables are included). The USB connections USB offers very fast and easy data transfer – up to 10 Gbps via USB-C, and up to 5 Gbps via USB 3.0. The USB-C interface is compatible with Thunderbolt 3. The rigid aluminium case construction provides efficient heat dissipation and protection for HDD/SSD drives.

One of the greatest advantages of this frame is the support of RAID, which will allow either to set high level of your data protection, or the very high data writing speed, eventually to create huge hard disk unit (consisting of two hard disks. The following RAID possibilities (if two hard disks are used) are available:

- **RAID 0**: very high data writing speed (the frame is able to perform interlaced writing to both hard disks).
- **RAID 1**: high data protection level (the frame perform mirroring (it writes the identical data to both hard disks; in case of failure of one of the hard disk, neither the data nor the access to the data will be lost).
- **JBOD/Standalone**: within the system, the frame is seen as two standalone ones.
