

OfficePal C30M

Whether in the company office or at home, the OfficePal C30M office chair is the perfect support for productive work thanks to its ergonomic design and integrated ergonomic functions for the head, back and arms. Whatever the office environment, the chair's mesh backrest ensures a particularly light and flexible seating experience, while the tilt function supports freedom of movement and relaxed sitting.

Features

DURABLE, LIGHT AND BREATHABLE

The OfficePal C30M office chair uses a stretched-mesh construction for the both the backrest and the seat base. For a particularly light feeling when sitting, this provides an optimal distribution of the applied pressure over the entire seating surface. The unpadded mesh design is also characterized by a particularly long service life.

EFFICIENCY THROUGH ERGONOMICS

To support productive working, whether at home or in the company office, the OfficePal C30M can be ergonomically adapted to the needs of the user. In addition to the variable seat height as well as an adjustable, lockable tilt angle, the chair also offers a comfortable, adjustable five-height backrest as well as flexible 3D adjustable armrests.

PERFECT SUPPORT FOR HEAD AND BACK

As an additional aid to comfortable working and a healthy sitting posture, the OfficePal C30M is equipped with an integrated lumbar support and headrest. The headrest can be adjusted in height and angle for users up to 190 cm.

WIRELINE CONTROL MECHANISM

The easy-to-use and easy-to-reach wireline control mechanism allows the tilt function to be unlocked for more freedom of movement. In addition, the tilt angle can be locked, and the seat height can be adjusted using the smooth and light wireline controls.

STABLE CONSTRUCTION

The stable frame construction of the OfficePal C30M, including the smooth-running 60 mm wheels, in combination with a high-quality class-4 gas lift piston, ensures a load capacity of up to 120 kg.

Specifications

Product Name	OfficePal C30M
