Mugen 4 Product Specifications

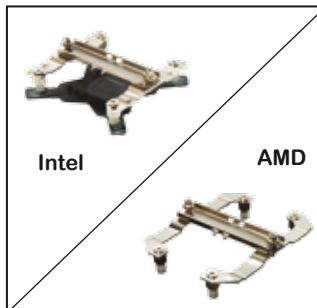

Excellent Performance T-M.A.P.S.

The newly developed T-M.A.P.S. (Three-dimensional Multiple Airflow Pass-Through Structure) lamellar design enhances the airflow inside the heatsink. In combination with six copper heatpipes, a superb cooling performance is guaranteed.

H.P.M.S. (Hyper Precision Mounting System)

The mounting of the Mugen 4 is easily done by applying the new Hyper Precision Mounting System. It ensures a simple, user-friendly fitting of the Mugen 4 onto the motherboard. Needless to say, it is compatible with all common sockets including the upcoming socket 1150.

Glide Stream 120 PWM - Dual Fan Operation

The supplied new Glide Stream 120 PWM fan with its unique blade design is automatically controlled by the motherboard's PWM function, the temperature adjusts to the CPU. Following in its predecessor's footsteps, the Mugen 3, the new Mugen 4 also offers the option of fitting a second fan for maximized cooling by applying the proven push-pull principal. A second set of fan clips is included.

Package Weight	1148 g / 40.49 oz
