

WorkForce Pro EM-C8100RDWF

The WorkForce Pro EM-C8100RDWF is a high ink yield 4-in-1 with single-pass duplex scan capability and up to 1,835 paper capacity.

Eliminate traditional printer frustrations with the WorkForce Pro RIPS business printers. The Replaceable Ink Pack System (RIPS) technology uses high-yield ink supply bags so there is less need for user intervention². With fewer consumables than comparable lasers, waste is also lower, and service interruptions are kept to a minimum.

Low running costs with low intervention

A paper capacity of up to 1,835 sheets means less time spent refilling paper. High ink yields lower the need to order and replace supplies frequently⁴, help to deliver predictable print costs and a competitive TCO. Our Heat-Free printing technology, uses no heat in the ink ejection process, so your business can save energy, time and reduce intervention⁵.

Uninterrupted, high-volume printing

Print up to 20,000 pages (mono/colour) without changing supplies⁴ with a fast FPOT of 5.5 seconds from ready mode¹ and single-pass duplex scan increase productivity. Print speeds of 25 ppm and 45 ipm duplex scan⁴, ensure this an ideal printer for a wide range of industry sectors. Lower costs of servicing and maintenance make this a reliable and attractive choice for businesses.

Solutions to support your business

Epson Print Admin (EPA) aids your print security requirements, as well as scan workflows with Document Capture Solution Suite. Compatibility with embedded Solutions, such as IP-Fax and easy remote diagnosis with Epson Remote Services, all boost additional functionality to the device. Vertical market needs are addressed through the compatibility with 3rd party solutions thanks to the Epson Open Platform.
