Magnificence multiplied.

MD230 Series Multi-Display LCD Monitors

Samsung MD230 Series Full HD Multi-Display Solutions

Expand your point of view with the Samsung MD series. Available as a single-screen, 3-screen, or 6-screen package, the Samsung MD series features cutting-edge display performance to realize a bigger, better picture. Specifically designed for the multi-display environment, the Samsung MD series is a truly unique solution that unlocks the potential of every on-screen moment.

Ultra-thin bezel, super-seamless.

To facilitate the creation of a seamless multi-display environment, the Samsung MD series features an ultra-thin bezel. At only 7.6mm (left and right sides), 9.4mm (top), and 8.2mm (bottom), multiple Samsung MD series can be combined either vertically (3x1) or horizontally (1x3 or 2x3) to create a video wall that is clearly superior.

Multi-display ready from the box.

To help you create the ideal multi-display environment, the Samsung MD series comes bundled with a precision-aligned 100mm height-adjustable stand, that ensures perfectly aligned bezels and supports several multi-display formats. MD230X3 monitors can be configured in either landscape or portrait mode, and a total of up to 6 can be combined and operated with one remote control keypad for ultimate convenience.

Brilliant full HD picture quality.

Complete your multi-display experience with the highest picture quality you can get: full HD. The true beauty of full HD 1080p images come to life with incredible color and detail, adding natural depth and reality to the viewing experience. The MD series offers a stunningly clear picture thanks to an incredible industry-leading 3,000:1 static contrast ratio and a 150,000:1 dynamic contrast ratio. And with wide horizontal/vertical viewing angles of 178°/178°, the picture looks razor-sharp from every direction.

Multi-display control.

The Samsung MD series comes with an intuitive, easy-to-use Multi Control Pad that can control up to 6 monitors simultaneously. Monitor selection is simple, enabling you to select from automatic preset modes to customize the on-screen environment to meet your exact needs.

Convenient connection options.

With Display Port (DP), DVI, and VGA interfaces available, the Samsung MD230 is equipped to connect conveniently to a variety of analog or digital sources.

Specialized stand supplied.

To provide specialized support for the different multi-display formats, the Samsung MD series includes a specialized stand standard (MD230X3 and MD230X6). The ergonomic 100mm height-adjustable stand with precision-aligned bezel fit and 30-degree tilt function is designed for an optimal multi-display environment.

Streamline your workstation.

The Samsung MD230X3 and MD230X6 multi-display workstations are impressive from both the front and the rear. The included stand is engineered specifically for the ultra-thin bezel MD230 monitors, to provide a precision fit and a virtually seamless video display. And the monitors daisy-chain, for a clean, simple, cable management solution.

MD230X6

Take your gaming to the next level.

Samsung MD series monitors are designed to create an expansive environment that will take your gaming to the next level. With their ultra-slim bezels, easy multi-display assembly and powerful graphics performance, they deliver high-speed images at the highest resolution, providing the ultimate platform for immersive entertainment.
