Nedis.com

This silent wireless rechargeable mouse is as comfortable as it is quiet, reducing key-click sounds by at least 90%. Which means you're free to work in peace – at home or at the office.

This reliable mouse has built in rechargeable battery and an energy-saving on-off button. It comes with USB-A/C nano dongle which can be used on both a USB-C or a USB-A port. The dongle can be stored under the magnetic top plate when it is not in use.

The 3-button mouse with a high precision dpi resolution of 1200 DPI is designed for left- and right-hand use.

Features

- Mouse can be wirelessly connected to PC or laptop
- Environmentally friendly thanks to the built-in rechargeable battery
- USB-A/C nano dongle which can be stored in the mouse
- Suitable for left and right hand use
- High precision dpi resolution of 1200 DPI
- Energy-saving on-off button
- Compact flat design so you can easily store the mouse in your notebook bag or sleeve
