Description

The equip® 327312 19" Rack Mount Cable Management Panel is an essential 1U organizational accessory for data centers and server rooms. Designed to fit standard 19" racks, it provides an efficient solution for managing and routing cables neatly across the rack infrastructure.

The panel features five plastic cable rings that securely hold and organize cables, preventing tangling and maintaining a tidy rack setup. This promotes better airflow, reducing the risk of overheating and simplifying maintenance tasks.

With its durable construction and easy installation, this cable management panel ensures a cleaner, more organized, and easily maintainable rack environment. Built from sturdy steel and plastic with a Light Grey (RAL 7035) finish.
