SMART HOME WiFi camera with motorized pan & tilt, outdoor IP65, 2MP, ONVIF, white

The Pan & Tilt function makes it possible to easily adjust the image horizontally and vertically for an extended image area and with two-way audio, you get in addition to the image also the ability to hear and talk to your visitors. The camera has a resolution of 1920 x 1080 (2MP) and can be programmed to create detection zones withing the cameras field of view to only detect from selected areas. A Micro-SD card slot is available for storing recorded material.

With the DELTACO SMART HOME app you can access and control all settings for the camera. Installation is quick and easy, all you need is a functioning wireless network, ie. no special hubs or gateways. In the DELTACO SMART HOME app, in addition to managing settings, you can also enable motion detection, either to be on all the time or to schedule the camera to be active at certain times of the day. You also handle previous recordings made by the camera or you can take a screenshot or record real-time video stored on your phone. The DELTACO SMART HOME app is of course available for free download for both Android and iOS.
