LIMITED EDITION

P120 CRYSTAL WHITE

MEET THE SUBLIME PERFORMANCE

Antec Performance P120 Crystal White Mid-Tower case is a prime combination of aesthetics and performance. Featuring an industry-leading slide button design, front and side tempered glass panels, aluminum VGA holder and 2 x 360 mm radiator support simultaneously, P120 Crystal White offers the best configuration for your personal computer setup, and it's ready to give you a mind-blowing user experience.

CLASSIC, BUT WAY BETTER

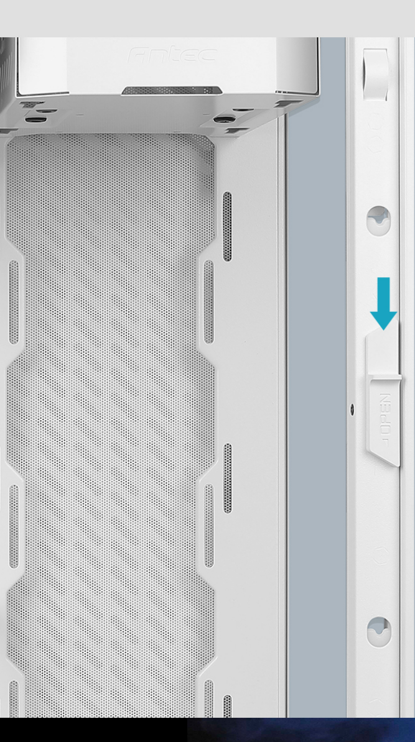
Antec P120 Crystal White follows the minimalism design of Performance Series and brings it to the next level.

Featuring the front and side tempered glass panels, P120 Crystal White affords a panoramic view of your well-planned PC setup and custom water-cooling loop.

SLIDE IT, SWING IT

EVERYTHING IS ACCESSIBLE

Say goodbye to thumbscrews. P120 Crystal White comes with an industry-leading slide button design on the tempered glass side panel.

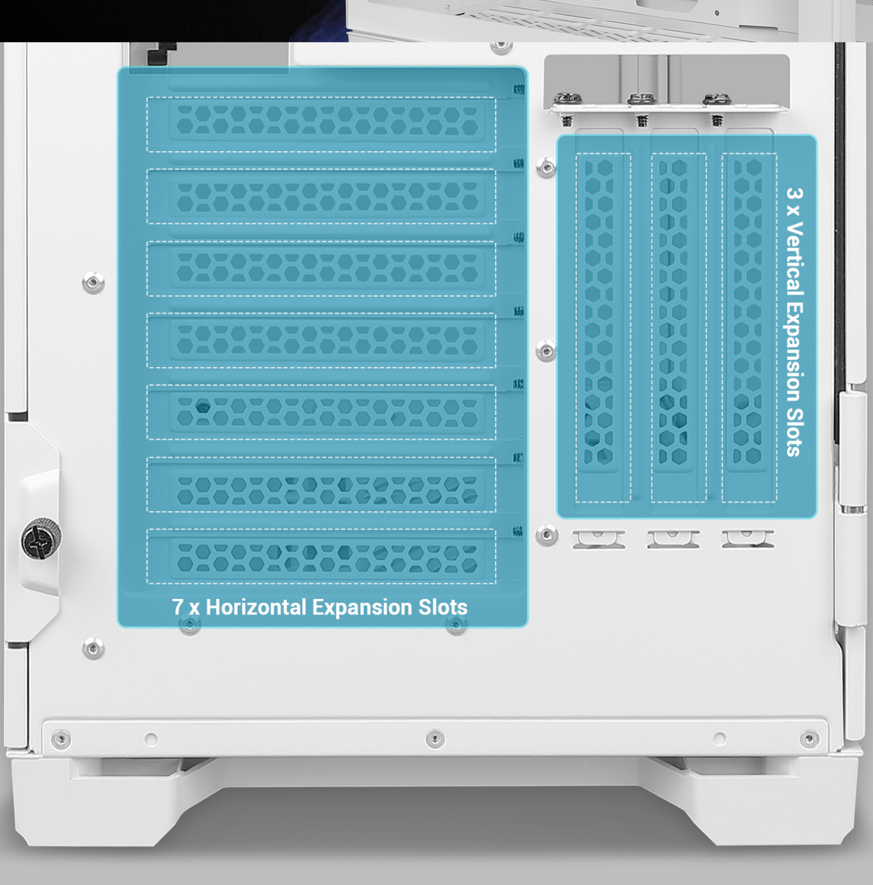


With a quick sliding, you can easily swing the side panel and get hands on the components in the inside.

UP TO THE TOP

The top-mounted PSU chamber frees the space at the bottom of P120 Crystal White, allowing users to have more options to plan their custom water-cooling loop and radiators.

The PSU is installed from the rear.



UNPARALLELED SCALABILITY

P120 Crystal White also comes with 7 x horizontal and 3 x vertical expansion slots, offering huge space for you to explore more potential PC configuration.

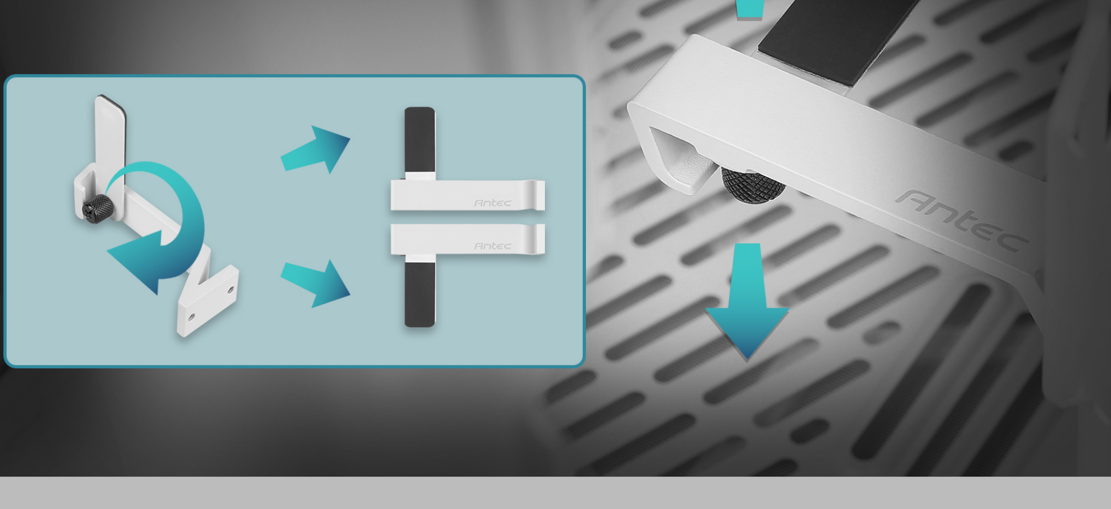
HORIZONTAL

VERTICAL

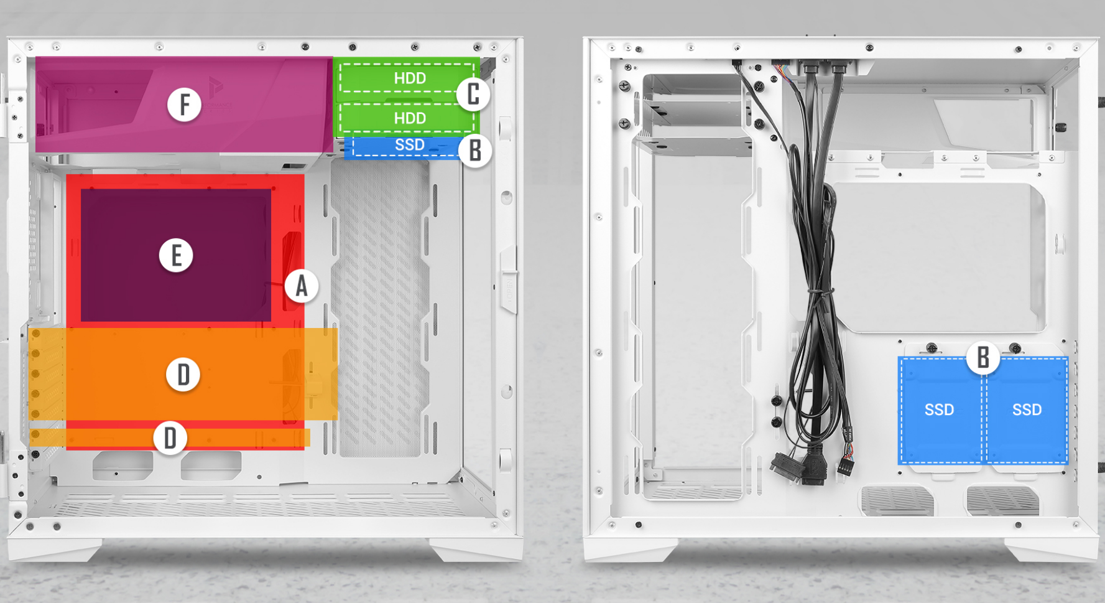
WELL-CRAFTED

ALUMINUM VGA HOLDER

The inbuilt aluminum VGA holder is flexible, providing plenty of possible positions for graphics card.



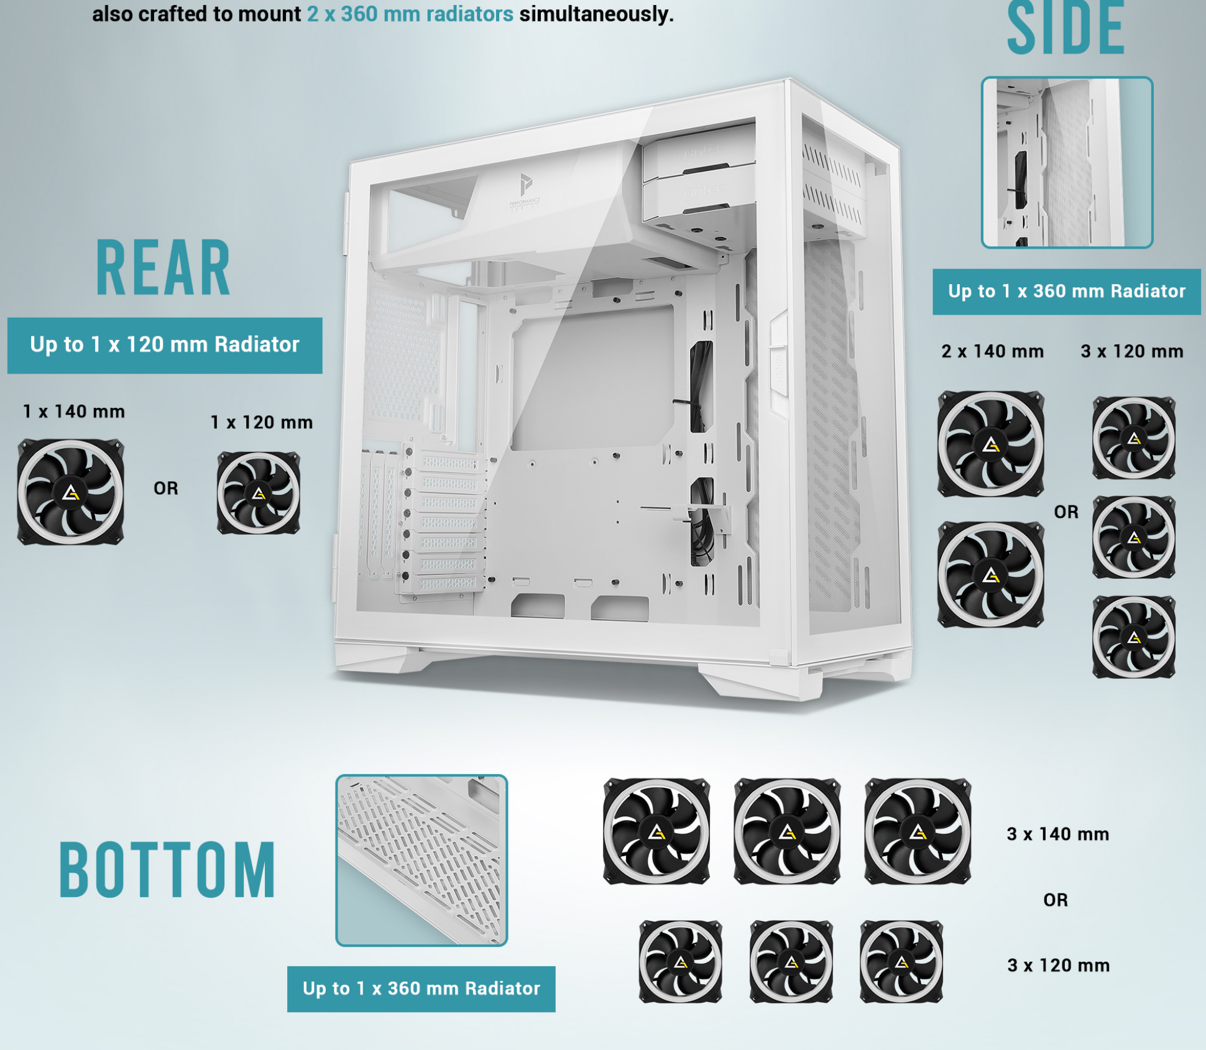
- A Motherboard Support: Up to E-ATX (Up to 12" x 11")
- B 2.5" SSD: 3
- C 3.5" HDD/2.5" SSD(convertible): 2/1
- D Graphics Card Support: Up to 450 mm
- E CPU Cooler Support: Up to 185 mm
- F PSU Support: Up to 294 mm



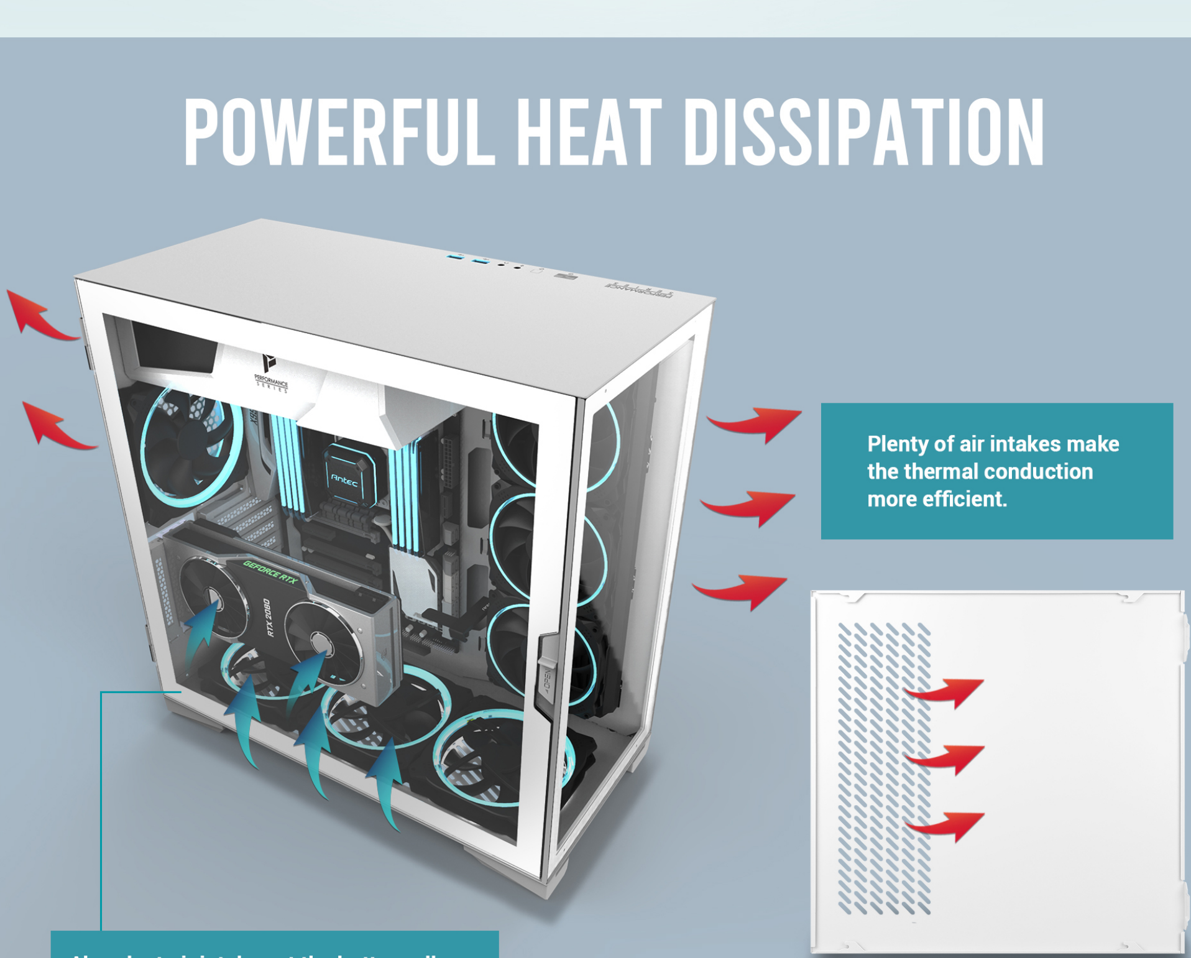
GO BEYOND PERFORMANCE

BETTER AIRFLOW, SUPERIOR COOLING

Supporting up to 7 x 120 mm or 6 x 140 mm fans, also crafted to mount 2 x 360 mm radiators simultaneously.



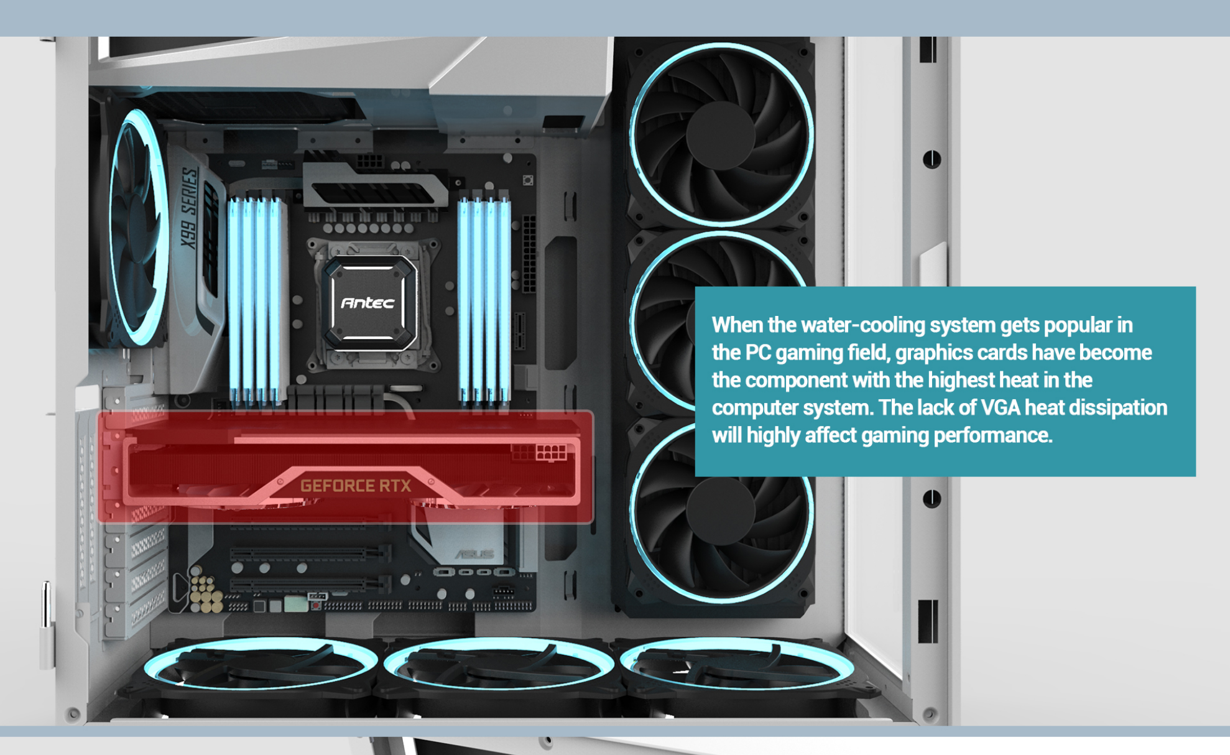
POWERFUL HEAT DISSIPATION



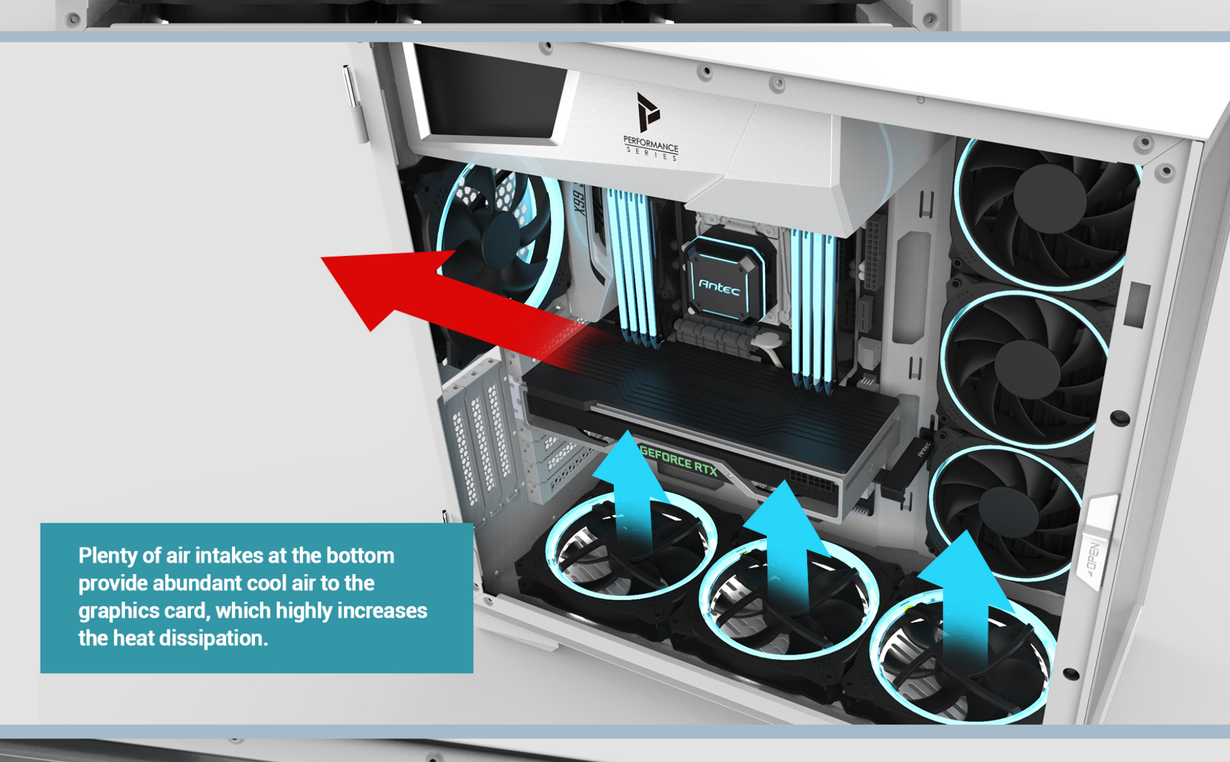
Plenty of air intakes make the thermal conduction more efficient.

Abundant air intakes at the bottom allow the graphics card to cool down faster. 3 x vertical PCI-E Slots provide more space for graphics card and improve the thermal performance at the same time.

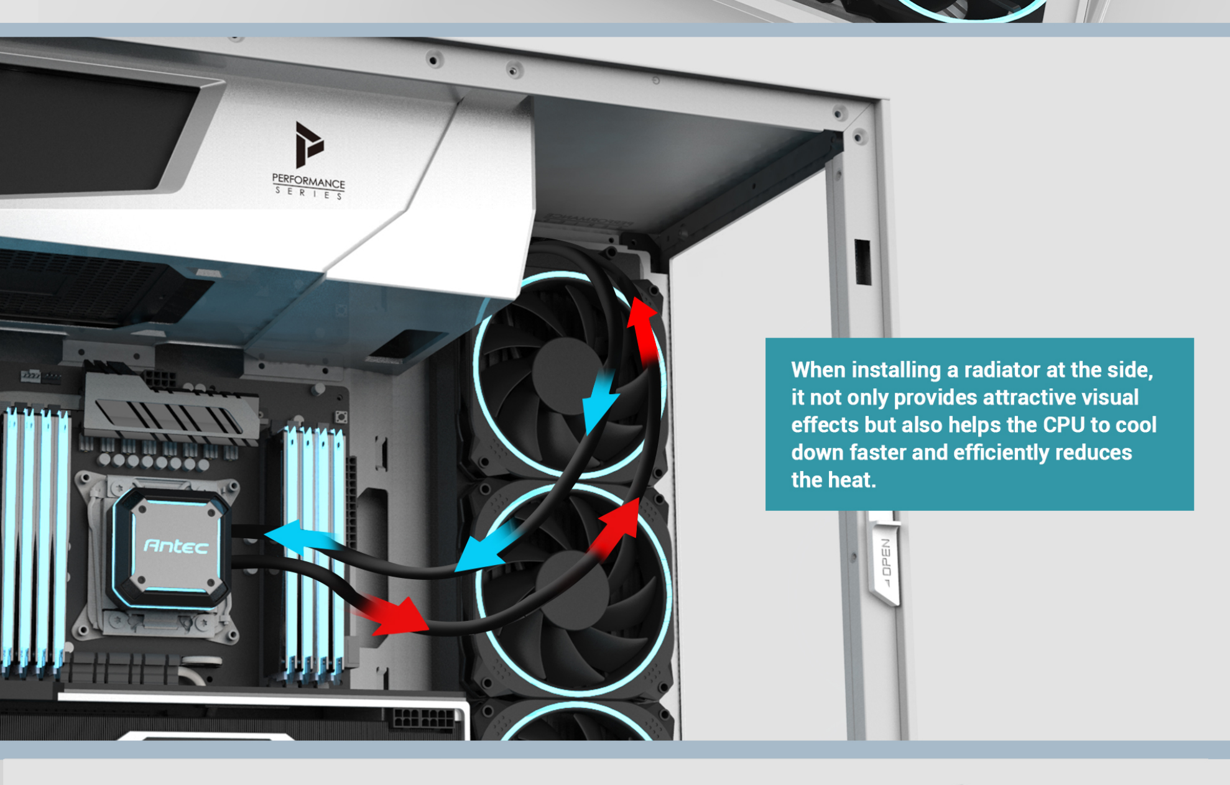
DESIGNED FOR VGA HEAT EMISSION



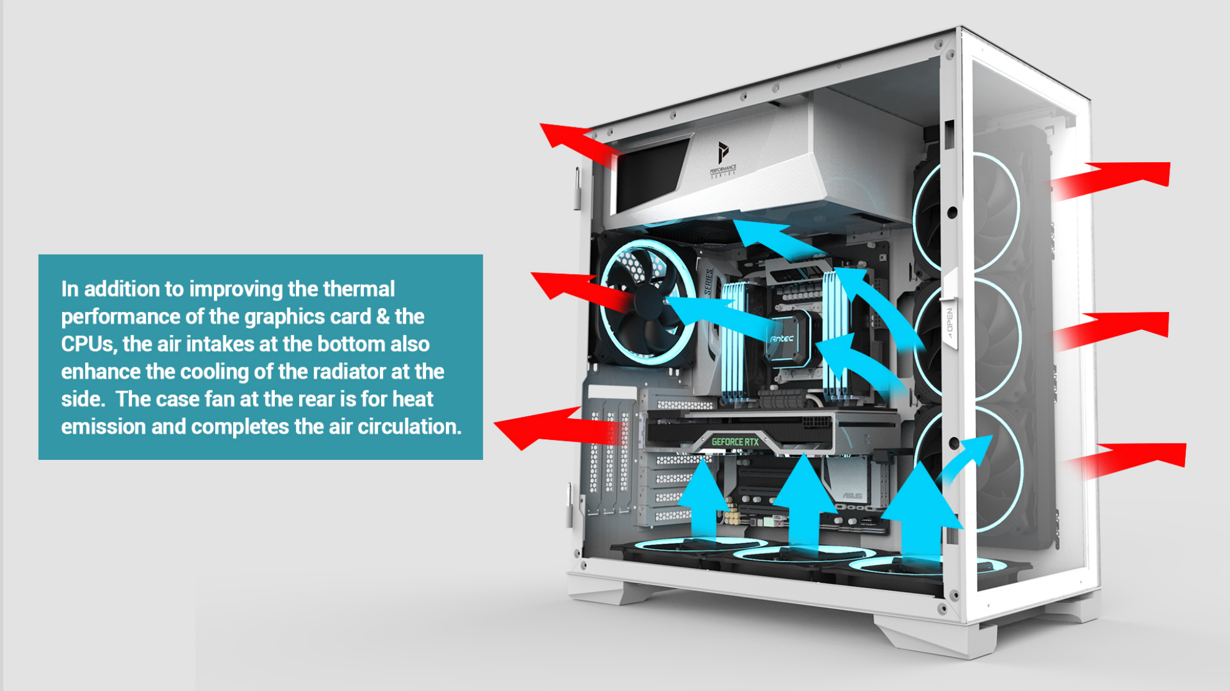
When the water-cooling system gets popular in the PC gaming field, graphics cards have become the component with the highest heat in the computer system. The lack of VGA heat dissipation will highly affect gaming performance.



Plenty of air intakes at the bottom provide abundant cool air to the graphics card, which highly increases the heat dissipation.



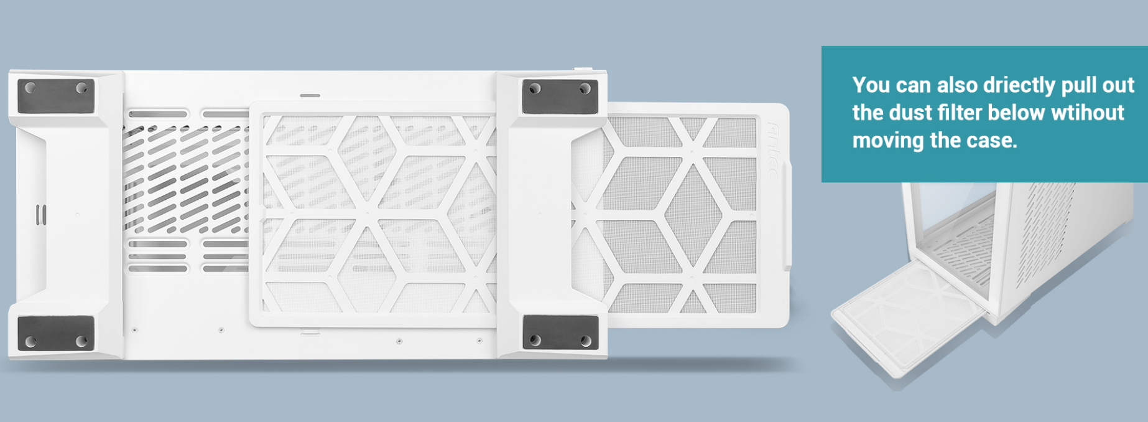
When installing a radiator at the side, it not only provides attractive visual effects but also helps the CPU to cool down faster and efficiently reduces the heat.



In addition to improving the thermal performance of the graphics card & the CPUs, the air intakes at the bottom also enhance the cooling of the radiator at the side. The case fan at the rear is for heat emission and completes the air circulation.

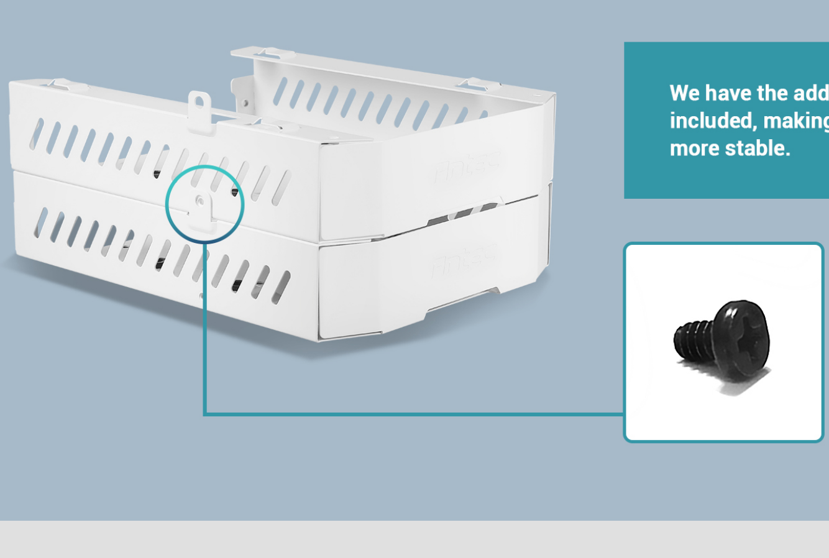
EASY ACCESS, EASY TO CLEAN

The magnetic dust filter on the right-side panel only take a lift to remove it.



You can also driectly pull out the dust filter below wtihout moving the case.

FOR SYSTEM INTEGRATORS



We have the additional drive bay screw included, making the upgraded build more stable.

The drive bay screw is included in the accessory pack.

Case Size 476mm (D) | 234mm (W) | 485mm (H)

P120 CRYSTAL WHITE

MEET THE SUBLIME PERFORMANCE

Case Specifications	
Case Dimensions	476 x 234 x 485 mm (DWH)
Form Factor	Mid Tower
Materials	Steel
Motherboard Support	E-ATX, ATX, M-ATX, ITX
Front Access & Controls	Power, Reset, White LED USB3.0 x 2, HD-AUDIO
Side Panel	Tempered Glass
Expansion & Drive Bays	
Expansion Slots	7 (Horizontal) + 3 (Vertical)
3.5" / 2.5"	2 / 1
2.5"	3
Cooling Support	
Bottom	3 x 120 mm / 3 x 140 mm
Rear	1 x 120 mm or 1 x 140 mm
M/B Side	Up to 3 x 120 mm or 2 x 140 mm (1 x HDD bracket needs to be removed when installing 3 x 120 mm)
Radiator Support	
Bottom	Up to 360mm (≤ 28 mm Thickness)
Rear	Up to 120 mm (Limited Radiator Length ≤ 160 mm)
M/B Side	Up to 360 mm (Radiator length < 400 mm, remove one bracket; Radiator length ≥ 400 mm, remove both brackets)
Clearances	
Max GPU Length	≤ 450 mm
Max CPU Cooler Height	≤ 185 mm
Max PSU Length	≤ 294 mm
Miscellaneous	
Dust Filters	Bottom / Right Side Panel
Net Weight	10.4 Kgs
Gross Weight	12.4 Kgs
Warranty	2 Years
UPC#	0-761345-81201-6
