MANTIS

zoopa Q 600 MANTIS

Unique design, beginner-friendly control and pure fun.

With three flight modes (controlling speed and agility), the „orientation mode“ (beginner-friendly) and the supercool, exceptional design, the zoopa Q 600 Mantis is the ultimate racing machine for in- and outdoor use. Fly in beginner mode for relaxed and electronic supported control. Flips, loopings and actionpacked flights without limitations are enabled in the professional mode.

Switchable LEDs and orange colored rotors support the orientation. Equipped with the optionally available FlyCamOne Nano M HD camera system (ZQ0600-P), you are ready for aerial videos and photos. The controller is already prepared for camera functions.

The integrated 6-Axis-Gyro 2.0 Technology guarantees perfect flying on every skill level.

360° 3D Auto-Flip function

Use the automatical 360° flip function in professional mode for spectacular loops.
