

OPTIONAL MOTOR HOME NAVIGATION SOFTWARE BUNDLES FOR Z-E3766

With the optionally available microSDHC nav cards Z-EMAP66-MH3 or Z-EMAP66-MH7, the Z-E3766 becomes a full-function naviceiver for motor homes.

- 3D motor caravan navigation software with coverage of 47 countries: Western and Eastern Europe, Great Britain, Turkey, Ukraine, Belarus and Russia (on 16 GB microSDHC card)*
- Pre-configured motor caravan profiles with additional input of height, width, length, weight and trailer data
- Camping POI package with approx. 20,000 camp site locations and motorhome stop over sites in Europe (multilingual: in DE / EN / NL / IT / FR)
- European Premium POI package with over 6.5 million special destinations
- Realistic 3D rendering of terrain, landmarks, city centers and highway exits
- Dead Reckoning navigation for precise route guidance without GNSS signal (tunnels, underpasses, parking decks, etc.)
- Navi Splitscreen in audio sources with street names and house numbers, as well as turn-by-turn info with distance to next turn
- Lane assistance, Tunnel mode, 3D auto-zoom for crossings and roundabouts, intelligent alternative route calculation, etc.
- TTS voice guidance
- TPEG traffic service data via DAB+ (country-specific coverage, free service only)
- TMC receiver
- 3 years map update subscription (Z-EMAP66-MH3), 7 years map update subscription (Z-EMAP66-MH7)

*The navigation bundles Z-EMAP66-MH3 and Z-EMAP66-MH7 are not part of the set content of the Z-E3766.

Top motor home navigation

The map package with 47 countries and 6.5 million Premium P.O.I. navigates with the latest ZENEC NextGen navigation engine and Dead Reckoning function. Detailed 3D maps, TPEG, TMC, Auto-Zoom, Lane Assist and more turns the Z-E3766 into a perfectly equipped route finder.

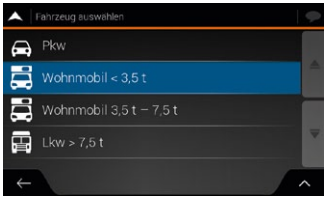

47 countries map coverage

Navigate through Europe the clever way – the map package contains 47 countries: Western and Eastern Europe, Great Britain, Turkey, Ukraine, Russia, and Belarus. The rendering of terrain and 3D buildings is clear and realistic.

3 or 7 years of free map updates

Update the map content of your navigation package comfortably before your next trip – 3 years for free (Z-EMAP66-MH3) or 7 years for free (Z-EMAP66-MH7). This is easy like any update, with a PC or notebook and the Toolbox software via the Navixtras portal (www.zenec.naviextras.com).

Preconfigured vehicle profiles

You can choose between different vehicle profiles (passenger car/motor homes < 3.5 t / 3.5 t – 7.5 t / truck). By entering additional vehicle specific data like height, width, length, weight and with or without trailer, the Z-E3766 can perfectly calculate the route to any destination.

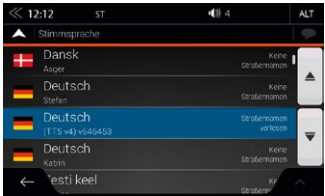

Camping POI package

Detailed information on campsite and motor home stopover sites is offered by the preinstalled, comprehensive Camping POI package (multilingual, in DE / EN / NL / IT / FR). The database shows approximately 20,000 campsite and motor home stop-over sites in Europe.

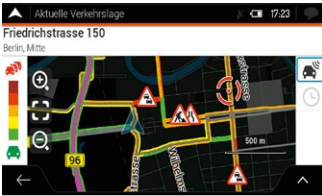

Navi split screen mode

The Z-E3766 offers a navi splitscreen in the audio sources. This allows the display of street names with house numbers, as well as turn-by-turn info with distance to the next turn. So you never lose the overview while listening to music in a playback source.

TTS voice navigation

The navigation package of the Z-E3766 supports TTS voice navigation (Text-To-Speech) for some languages: During route guidance, the navigation system reads out street names – helping to maintain orientation by listening to route guidance announcements only.

TMC / TPEG

The Z-E3766 not only contains a TMC receiver for analog data, but also features the DAB-TPEG function to display traffic events faster, supporting Free TPEG data (country-specific coverage).

Z-E3766

Vehicle-Specific Naviceiver

Compatible with FIAT Ducato III | Citroën Jumper II | Peugeot Boxer II

VEHICLE-SPECIFIC NAVICEIVER FOR FIAT DUCATO

Innovative multimedia and the most advanced navigation functions for your motor home – the Z-E3766 from the E>GO PRIME range is specifically developed for the FIAT Ducato III, Citroën Jumper II, and Peugeot Boxer II. The Z-E3766 blends in perfectly with the **original look** of your vehicle, and can be comfortably controlled from the **touch sensitive capacitive 9"/22.9 cm screen** with glass surface.

The Z-E3766 provides for an easy and totally safe smartphone use in the car. Via USB you can dock your phone directly to the infotainer – the Z-E3766 is **Apple CarPlay** and **Google Android Auto™** certified. Making phone calls, use Google or Apple maps to find a destination, play music and send or receive messages is true mobile convenience where the choice is yours: control and operate apps either via device touchscreen or with the Apple Siri or Google's voice assistants.

The integrated **DAB+ twin-tuner** does impress mobile listeners with its clear digital radio playback and a dynamic station list. Yet, the twin-tuner can score even higher with DAB comfort functions: MOT Slideshow, DLS text and DAB<>FM/DAB<>DAB Service Following. The high-sensitivity **FM RDS tuner** ensures good reception of conventional FM stations in regions where the DAB+ broadcasting network is not established sufficiently well yet. The Z-E3766 supports the playback of the latest audio and video formats of USB memory devices connected via **USB 2.0 port**.

Very important and convenient: up to **three camera systems** can be connected and controlled by the Z-E3766 – with automatic and manual operation including adjustable grid lines and support of camera microphone audio.

Bluetooth source mode with wireless music streaming to **external Bluetooth speakers** is a really convenient special function, giving you access to music outside of the motor home. The up-to-date **Bluetooth 4.1 module** offers very good voice intelligibility with advanced hands-free functions. A2DP music streaming from smartphones is supported as well.

Two **navigation software packages** are available separately to extend the Z-E3766 to a full-function naviceiver for motor homes: Z-EMAP66-MH3 (3 years map care subscription) and Z-EMAP66-MH7 (7 years map care subscription). Both packages contain digital map data covering 47 European countries. The integrated **camping POI package** with approx. 20,000 camping and motor home stopover sites plus another 6.5 million Premium POI – ZENEC's motor home specialist guides you safely and reliably to any destination. By choosing a **vehicle profile** and entering the vehicle parameters, the Z-E3766 plans all your routes with highest effectiveness.

VEHICLE COMPATIBILITY LIST

Model	Model Type	Model Year
FIAT Ducato III	250/251	2006 – 2011
FIAT Ducato III	250/251	2011 – 2014
FIAT Ducato III	250/251 (X290)	as of 2014
CITROËN Jumper II	250/250D/250L	as of 2006
PEUGEOT Boxer II	250/251	as of 2006

A detailed list of the device specifications and functions can be found at www.zenec.com under 'Specifications'.

- Additional information**
- With the installation of the Z-E3766 device, the original FIAT Ducato document holder function on top of the dashboard becomes impaired and cannot be used anymore.
 - For the direct mounting of a Z-E3766 device, the target vehicle must be factory equipped with radio provision.
 - The vehicle must feature a suitable active antenna system (FM/DAB+) to provide sufficient antenna signal level for correct tuner function.

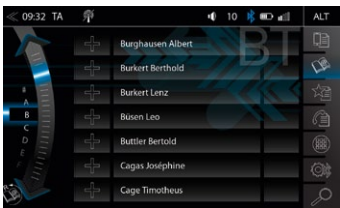

Perfect in-vehicle integration

Specifically developed for the FIAT Ducato III: Due to its specific construction and the white/amber button illumination the Z-E3766 blends in perfectly with the target vehicles, and is like a tailor-made fit in the motor home cockpit.

Large capacitive 22.9 cm/9" screen

The capacitive 22.9 cm/9" LCD TFT touchscreen with glass surface gives you accurate control with just a light touch. The screen is convincing for its high brightness level and excellent contrast range for brilliant video playback.

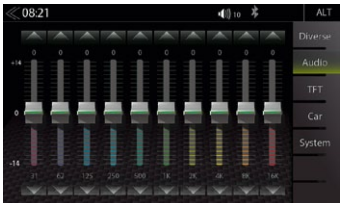

Bluetooth 4.1 hands-free module

Hands-free calling with phonebook synchronization and search function for entries by first name and surname. The easy to edit favorites menu with fast dial function is optimized for driving safety, and offers echo canceling for best speech intelligibility.

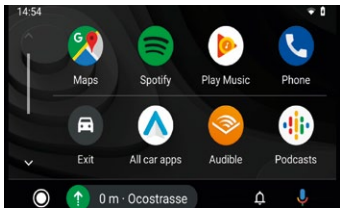

Connection of up to three cameras

The Z-E3766 allows the connection and control of up to three cameras. The cams can be manually controlled via touchscreen or the cam sensor button. You have the option of displaying configurable grid lines for better estimation of the distance.

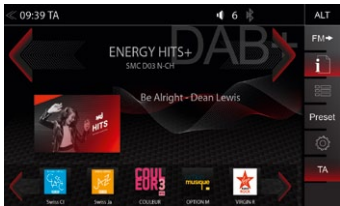

10-band graphic equalizer

With the 10-band graphic equalizer you can manually tune the sound to compensate for characteristics of the motor home or personal preferences. You can also select a predefined EQ profile from a list of available options for a quicker optimization of the sound.

Google Android Auto™

The Z-E3766 is Google Android Auto certified. With GAA you are able to access compatible apps and online services of your Android smartphone and operate them intuitively with the display of your ZENEC device, or the voice assistant from Google.

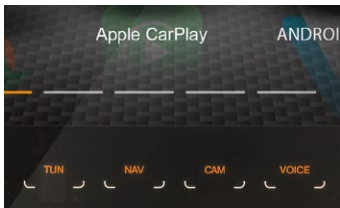

High-sensitivity DAB+ twin-tuner

The DAB+ twin-tuner with dynamic station list, MOT Slideshow, DAB<>FM and DAB<>DAB Service Following and DLS text stands for clear and stable digital radio reception. The dynamic background scan keeps the radio station list permanently up-to-date.

A2DP SRC mode for BT speaker

In the A2DP source mode the Z-E3766 transmits the audio signals to external Bluetooth speakers or headphones. A Bluetooth antenna at the rear of the device optimizes the transmission path for speakers located outside the motor home.

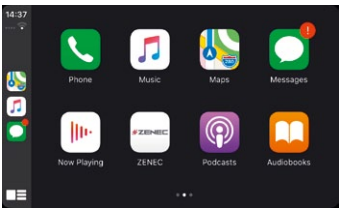

CAM direct selection button

The Z-E3766 has a CAM direct selection button on the front of the device that allows manual control of the cameras installed in the vehicle. You can start the rear view camera mode by touching the CAM sensor button anytime you need it.

M-Zone (rear) mode

The Z-E3766 offers the option of playing back two different sources simultaneously: e.g. audio playback from the DAB+ tuner source on the Z-E3766 and loudspeakers, while playing an A/V-signal from A/V-In on an external LCD TV.

Apple CarPlay

Apple CarPlay is a smarter, safer and more entertaining way to use an iPhone in the car. With CarPlay, you can make phone calls, navigate, listen to music, and access messages with Siri voice control.

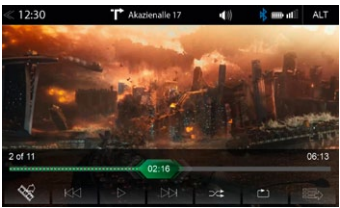

FM RDS tuner

The Z-E3766 features an advanced FM RDS tuner module with audio post processing for improved broadcast quality of weak FM signals by audio DSP noise reduction. 18 FM station presets help to store favorite radio stations.

Smartphone app for audio functions

Using the smartphone ZENEC SP-REM app for Android and iOS smartphones, you can conveniently control the audio functions of the Z-E3766 directly from your smartphone. The app remote displays audio metadata such as track info, station names and VOL level.

Modern entertainer

The Z-E3766 supports playback from all the media files widely used today: MP3, FLAC, AAC (MP4A), M4A, WAV, AVI, MP4, H.264, MKV 1080p, MPEG2/TS, MPG, WMV, XviD.

Connection to the SWC

The Z-E3766 offers native support for the FIAT Ducato steering wheel remote control button functions, supporting manual ad hoc re-assignment of steering wheel buttons. In addition, connection of an external CAN/Stalk interface is also possible.
