

CHERRY XTRFY GP7 BLACK

Gaming mouse pad made from graphene fabric

Models may vary from the image shown

UNIQUE GRAPHENE FIBER MOUSEPAD.

GP7 is the first gaming mousepad infused with graphene. Being one of the strongest materials known, graphene adds durability while keeping the pad flexible. Enjoy a smoother, ultra-dense surface with extreme wear resistance. And a softer natural rubber base for even better comfort and control. Unlock a new level with the GP7.

A CLOTH SURFACE LIKE NO OTHER.

The GP7 features graphene fiber textile to boost performance. Known for its smooth texture, graphene offers great glide while improving wear resistance, keeping the mousepad's feel and speed consistent over time. Despite being 200 times stronger than steel, graphene is lightweight, keeping the GP7 sleek and flexible. Its thermal conductivity also helps the mousepad stay cool and comfortable during long gaming sessions.

EXTRA-SOFT RUBBER FOR BETTER CONTROL.

The new, softer rubber base of the GP7 improves both comfort and precision. Offering high speed with light pressure and adding resistance as you press harder, it provides better control in micro-movements, allowing you to sharpen your accuracy.

SIZE: LARGE.

This Large mousepad, measuring 460 x 400 mm, provides ample space for gamers of all styles, fitting both high and low mouse sensitivity settings.

HIGHLIGHTS

- Graphene-infused cloth surface
- Extra-soft rubber base for enhanced control
- Stitched edges for higher durability

PRODUCT SPECIFICATIONS

Colour:	black
Weight main product:	370 g
Dimensions product without packaging:	460 mm x 400 mm x 4 mm
Storage temperature:	-20 °C - 60 °C
Working temperature:	0 °C - 50 °C
Scope of delivery:	Mousepad
Cleaning:	Handwash
Dimension:	L
Surface:	Graphene Fibre
Base:	Non-slip rubber base
