

283010

Rotary dimmer 400 W with setting knob, Light control, others

Technical features

Main electrical features

Nominal voltage	230 V

Voltage

Operating voltage	230 V AC

Fuse

Fine-wire fuse	T 1.6 H 250

- short-circuit and overload proof (fine-wire fuse)

Materials

Colour	not applicable
Material	Plastic/metal

Dimensions

Axis dimension Ø	4 mm

Incandescent bulbs control

230 V incandescent lamps and halogen lamps	60 … 400 W

Installation, mounting

- with spreader claws

Connection

Type of load	Resistive load

- with screw terminals

Equipment

- phase cut-on
- with change-over pressure switch

Use

- with setting knob

Safety

Halogen free	yes

Identification

Application, usage	Light control
Main design line	Light control

Instructions

- Possible to change fuse without removing cover.
