

AC3501 WIFI

CARAVAN AND HOME AIR CONDITIONER

The Eurom AC3501 Wifi is a powerful and above all practical air conditioner. You can hang this air conditioner as a split unit in your caravan or motorhome, but it can also be used at home. By mounting both units on top of each other and connecting a drain hose, you transform the AC3501 from a split air conditioner to a mobile one. This way you can not only enjoy it on holiday, but also at home. How efficient is that?

And because the AC3501 Wifi has no less than 3500 BTU of power, this air conditioner is suitable for larger caravans. But don't worry, you don't have to walk all the way to the other side of the caravan or room. You can operate it from your seat with the remote control or via the [Eurom Smart App](#).

Product number	382440
EAN	8713415382440
Suitable for space	living room, bedroom, study/office, at the camping
Powered by	electric
Cooling capacity	1025 W, 3500-4200 BTU
Power consumption	500 W
Power selection	3
Connection voltage	230/50 V/Hz
Air displacement	98-155 m3/h
Dehumidifying capacity	25 l/24h
Range (max.)	
Thermostat	yes
Timer	1 - 9 hour
Working temperature	
Refrigerant	95 gr, R290
Isolation class	IP24
Encasing	plastic
Dimensions	indoor unit 40 x 37 x 19 cm, outdoor unit 50,7 x 38 x 20,5 cm
Electrical cable	190 cm
Geluidsniveau binnen/buiten unit	
Weight	23 kg
Cooling	yes
Heating	no
Type	caravan air conditioner
Control	control panel, remote control, Eurom Smart App
Outdoor	Caravan air conditioner
