

Product name: ENDORFY Spartan 5 MAX
Product code: EY3A003

The ENDORFY Spartan 5 MAX is a short (at the highest point it's [14.6 cm](#)) cooler, with which you will start a cold winter in your CPU. The arctic breeze is ensured by a 120 mm Fluctus fan. We put it on a densely finned heatsink with four heat pipes, so you don't have to worry about hot flashes. With such a package you can render and design without worrying that your CPU will suddenly turn blue (unless you have colorful lights in stock).

The ENDORFY Spartan 5 MAX is also compatible with many sockets (from older ones like AM2 and LGA1156 to AM5 and LGA1700) and tall RAM sticks. Thanks to our ~~God-mode~~ [video instructions](#), you can set it up in mere minutes.

Quiet, quieter, the Spartan 5 MAX

If you happen to breathe louder, you may miss the sound of the Spartan 5 MAX working. This badboy is as quiet as students taking a written exam — except that our cooler remains silent even when the work is done.

A constant stream of airflow is supplied by the award-winning 120 mm [Fluctus](#) fan. The blades have been shaped in such a way as to blow as much air as possible through the densely arranged heatsink fins. Each blade has a wavy edge, which further reduces fan noise (psychoacoustic optimizations used in Fluctus fans are patent pending).

14.6 cm of power

At first glance, the Spartan 5 MAX seems small, but we added the word "MAX" to its name for a reason. The cooler is a short king, only 14.6 cm tall — thanks to this, it can fit in small cases and keeps the arctic-low temperature in them. It blows cold even when you pull an all-night gaming session after a busy day of work.

Such effective cooling is possible thanks to the heatsink with dense ribbing, which collects thermal energy well. The optimized base with direct-touch heat pipes drastically improves the dissipation of heat.

Assembly in a moment

You can literally mount the Spartan 5 MAX in a moment without additional fancy tools. Together with the cooler, we've released video instructions that will guide you step by step through the whole process.

By the way, we've taken care of the usually hardest things — we've installed a 120 mm Fluctus fan for you — so you'll be able to handle the whole process easily, even if it's your first time assembling a PC.

[6-year warranty](#)

We have been in the industry for a long time, and we know that the ENDORFY logo = high quality that cannot be faked. That's why with the Spartan 5 MAX cooler you get a long, [6-year](#) warranty (although you probably won't use it anyway).

ENDORFY Spartan 5 MAX – main features:

- Cost-effective CPU cooling
- Compact design

- Integrated Fluctus fan
- Extended fan speed range
- Pre-applied Pactum PT-3 thermal compound
- Easy and rapid installation
- 6-year warranty

ENDORFY Spartan 5 MAX – technical specifications:

- Product code: EY3A003
- EAN: 5903018665801
- Product type: CPU air cooler
- Colour: black
- Radiator dimensions: 146×125×65 mm
- Radiator type: tower
- Heatpipes: 4
- Maximum number of fans: 1
- Fans (included): 1
- Included fans:
 - 1 × Fluctus (integrated)
 - Fan dimensions: 120×120×25 mm
 - Fan speed: 250 (±100) – 1500 (±10%) RPM
 - Control (speed): PWM
 - Connector (fan): 4-pin (male and female)
 - Voltage (fan): 12 V
 - Current (fan, peak): 0.22 A
 - Fan bearing: FDB
- MTBF: 100 000 h
- TDP: 180 W
- CPU compatibility:
 - AMD: AM5, AM4, AM3(+), AM2(+), FM2(+), FM1
 - Intel: LGA1700, LGA1200, LGA1150, LGA1151, LGA1155, LGA1156
- Warranty: 72 months

ENDORFY Spartan 5 MAX – logistics data:

- Retail box dimensions: 153×113×184 mm
- Weight (net): 480 g
- Weight (gross): 605 g
- Master carton dimensions: 590×325×402 mm
- Master carton weight (gross): 13.6 kg
- Product quantity in master carton: 20 pcs

Set includes:

- Spartan 5 MAX heatsink with integrated Fluctus fan and pre-applied Pactum PT-3 thermal paste
- Mounting accessories
- Safety instruction
