TIPSTER 2 MOBILE

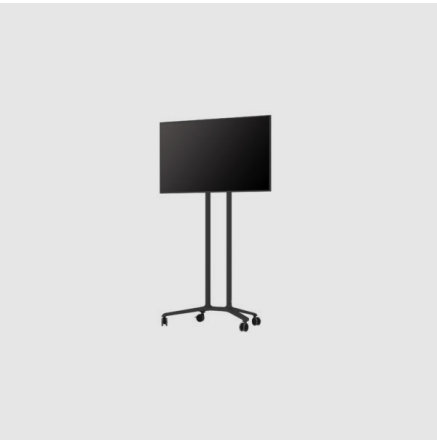

Look at those lockable wheels!

A mobile floorstand for corporate and conference

SMS Tipster 2 Mobile is an excellent mobile floorstand for corporate and conference. Smart, light, and designed for modern slim displays (max VESA 400 x 400 mm), it can hold your display in both portrait and landscape mode.
Do you need to move your display between rooms? No problem, thanks to smooth lockable wheels. The ingenious two-pipe design adds further to the clean look of SMS Tipster 2 Mobile. The pipes have room for cables, which can exit just above the casted aluminum foot, or under it, whichever suits the installation best.
You can choose to place your display at one of four fixed heights, and the installation is simple and cost-effective.
Finish: Dark Grey. Recommended display sizes appr. 32'' to 75''. Max load weight: 50 kg.
For a Tipster 2 floorstand with adjustable feet instead of wheels, check out SMS Tipster 2.
