Accelerate workflow with high-speed file transfer.

The Lexar Professional USB 3.0 Dual-Slot Reader leverages SuperSpeed USB 3.0 technology to deliver high-speed file transfer from card to computer, with a USB interface speed up to 500MB/s (reads up to 5 times faster than USB 2.0).* This allows you to maximize the speed and bandwidth of USB 3.0 desktop and laptop computers, and supports CompactFlash® (including UDMA 7), SD™, SDHC™, SDXC™**, and SD UHS-I and UHS-II memory cards. This makes the reader an excellent choice for photo and video professionals looking to significantly improve workflow.

Save Time and Significantly Improve Workflow

Quickly transfer files from both CF and SD card formats. While the high-speed Professional USB 3.0 Dual-Slot Reader supports the latest high-speed CF and SD formats, it's also backwards compatible with standard CF and SD cards, as well as USB 2.0. This provides you with convenient versatility on the go.

Save time with concurrent and card-to-card file transfers. The Lexar Professional USB 3.0 Dual-Slot Reader has the ability to read from both card slots simultaneously, and it also allows for easy file transfer from one card to another—further enhancing the reader's versatility.

Enjoy the convenience of innovative design features. The reader boasts an innovative, pop-up mechanism that protects the card slots by allowing you to close the reader when not in use. Also, its compact, portable design means you can take it on the go, and smooth contours help it slip easily in and out of your camera bag. The reader's sleek, glossy finish makes it a great addition to your workspace, and its LED activity light lets you know when your file transfer is complete. Includes a SuperSpeed USB 3.0 cable.

Warranty. The Lexar Professional USB 3.0 Dual-Slot Reader is backed by a five-year limited warranty.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

With a long history in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

For more than 20 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Product Highlights:

- Leverages SuperSpeed USB 3.0 technology for high-speed file transfer, with a USB interface speed up to 500MB/s*

- High-speed performance to accelerate digital workflow

- Maximizes speed and bandwidth of USB 3.0 computers, and supports CompactFlash® (including UDMA 7), SD, SDHC™, SDXC™**, and SD UHS-I and UHS-II card formats

- Enables concurrent and card-to-card file transfers

- Protective pop-up design protects card slots when not in use

- Five-year limited warranty

*Results may vary based on system configuration and card speed.
**Not supported on all operating system platforms.
