KEEP A LOW PROFILE.

The SK630 White Limited Edition is a slim mechanical keyboard with all the signature Cooler Master features like On-the-Fly Controls and RGB backlighting - but it adds new Cherry MX Low Profile switches in a clutter-free tenkeyless format. A reduced travel and actuation distance with extra-flat keycaps means you get all the precision and durability of a mechanical keyboard with the slim stylings of a minimalist keyboard. Add in a refined brushed aluminum housing and understated surrounding LED ring, and you have a keyboard that looks as good as it performs.
