- Powerful cordless router featuring a substantial 50 mm routing depth, suitable for a wide range of routing applications.
- Powerful Brushless motor for excellent cutting speed in wood and woodlike materials
- Millimeter-precise adjustment of the cutting depth utilizing a three-step stop mechanism and additional fine-tuning facilitated by the calibrated scale.
- Robust and torsion-resistant 2-column guide for highest precision
- Variable speed control for speeds adapted to the materials for any application
- Hardened and ground interchangeable collet chuck for precise concentricity of router bits
- Spindle lock for easy router bit change
- Restart protection: prevents unintentional start-up after power supply interruption
- Overload protection: protects the motor from overheating
- Equipped for many applications: Parallel guide / rip fence, template follower and suction adapter
