

NORDIC PRO E-BIKE 12V

HERRMANS® new head light hero Nordic PRO have brought a touch of the technology from the car industry into biking, by collaboration with Nordic Lights. Nordic PRO is the first bicycle head light that is suitable for all kinds of e-bikes 25km/h-45km/h. Its alloy housing gives an efficient cooling of the LEDs, and the robust glass lens offers extremely good UV- and scratch resistance. Thanks to its smart bracket solution, it can be mounted both on the handlebar- and stem, or fork mounting. The low beam offers 650 lumens and 120 lux.

Not all products are available in all markets. During continuous improvement specifications and design are changing. All values are nominal values. Illustrations do not necessarily show the design of every version and some features are version specific.

TECHNICAL DATA

Operational Lumens Output	Low beam: 650 lm	Optical System	Projector
Power Source	E-bike	Operating modes	ON (Low beam)
Nominal Voltage DC	12 V	Mounting Options	Handlebar / stem / fork
Power Consumption	10 W	Housing	Alloy
Input connector type	Cable	Salt Spray Test	ISO 9227 240h
Number of LED's	1	Type approval (light)	ECE R113, class B & StVZO
Colour Temperature	5700 K	EMC	EN 15194

KEY FEATURES

- Extremely sharp cut-off line and wide light pattern
- Suitable for all e-bikes 25-45 km/h
- A powerful and robust frontlight
